NASCC 2026 Exhibitor List

October 20, 2026
NASCC: The Steel Conference 2026

Booth Number	Exhibiting As	Company Description	Category List	Website
1000	Blackstone Group Technologies	Blackstone Group Technologies was established in 1993 with a single goal in mind; to offer the highest quality Steel Detailing and Engineering Services at highly competitive prices. 32 years later, our focus remains the same.	Detailers	https://www.bgtek.com/
1001	SEU by SE Solutions, LLC	SEU helps structural engineers get high-quality continuing education via web seminars in a format that is economical and easy to use. Every subscription includes access to both live sessions, as well as past session recordings through the SEU Learning Portal. In addition, subscribers get access to the “EIT Ramp Up” series to help younger engineers become productive faster. Provide the benefit of ongoing education to your engineers by participating in SEU!	Other	http://www.LearnWithSEU.com
1004	Pacific Stair Corporation	Pacific Stair Corporation, a leader in advanced stair system technology, has been located in Salem, Oregon for over thirty years. Pacific Stair develops, manufactures, and provides a stair system that meets or exceeds current international building codes. Our stair systems are engineered to make the most efficient use of materials and labor, reducing costs and improving delivery times. Our customers know that we care about their schedule and required delivery dates.	Construction and Project Management, Stairs/Railings and Miscellaneous Steel, Structural Systems and Components, Welding and Stud Material	https://www.pacificstair.com
1005	CSC - Canam Steel Corporation	Canam Steel Corporation (CSC) is a service-oriented manufacturer of open web steel joists and steel deck that services the entire US via our six manufacturing facilities. We are a company that prioritizes safety and efficiency of the entire process for both our employees and our customers. We believe in the power of partnerships and the need for flexibility throughout the process for all of our partners. Our projects range from the small retail store at a local strip mall to some of the largest distribution centers, high-rises, schools and stadiums. We are a participating member of both the SJI and SDI.	Joists and Deck	https://cscsteelusa.com/
1008	Dlubal Software, Inc.	Dlubal offers powerful programs for structural and dynamic analysis of multiple materials including steel, cold-formed steel, steel connections, concrete, aluminum, timber, CLT, glass, cables, and fabric form-finding per the USA/International standards. The 3D FEA program RFEM efficiently and accurately performs non-linear analyses of member, plate and solid elements. RFEM is one of the most highly sophisticated yet user-friendly programs especially suitable for new users with its intuitive modeling work flow. Experience why more than 5,000 companies and universities worldwide trust in Dlubal Software.	Software	https://www.dlubal.com/en

1012	Qualis Solutions, LLC	The team at Qualis Solutions has over 30 years' experience detailing structures thoughout the US using AISC standards. Over the years, we've created drawings for a wide range of projects including office buildings, hospitals, schools, warehouses and airports. Qualis is best known for our focus on miscellaneous metal detailing. Our team of 18 detailers have mastered the art of stairs, railing, canopies, balconies and many other miscellaneous designs. You'll find us easy to work with and a reliable part of your project.	Detailers	http://www.qualissolutions.com
1013	Steel Dynamics Long Products Group	Steel Dynamics® is one of the largest domestic steel producers and metal recyclers in North America, committed to providing the best steel products in the construction, automotive, heavy equipment, manufacturing, transportation, agriculture, energy, and pipe and tube markets. Our mills have the capacity to produce 4.4 million tons of long product steel using state-of-the-art electric arc furnace (EAF) technology that produces fewer emissions. We supply a wide range of structural steel beams and shapes, rail, engineered special-bar-quality steel, cold finished steel, merchant bar products, and specialty steel sections.	Mills	https://lpg.steeldynamics.com/
1014	Exact Detailing Ltd.	Exact Detailing is Canada's premier specialist in providing steel detailing, 3D modeling, BIM, and 3D laser scanning services to the North American steel industry. Our seven offices across North America employ high-quality detailers trained in the most recent programs and processes to provide the best AISC and CISC compliant shop drawings on all varieties of steel projects. Need services beyond steel detailing? Ask us about our PreConstruction / Pre Connected Models, project management/coordination, connection design, data management, and surveying services. We pride ourselves the quality of our work and look forward to working with you!	Detailers, Engineering Consulting, Other	http://www.exactdetailing.com
1020	Greenbrook Engineering Services	FOCUS ON QUALITY, DELIVER ON TIME. Greenbrook Engineering is an MBE certified company specializing in Connection Design, Structural Steel, Miscellaneous Steel and Rebar Detailing and B.I.M. coordination services for the steel industry. With offices in Phoenix, Arizona and New Jersey and production centers in Bangalore and Chennai, India, we serve Structural Engineers, Steel Fabricators and Architects.	Detailers, Engineering Consulting	http://www.greenbrookengineering.com
1021	New Millennium	Control project costs, enhance project performance and ensure project success with New Millennium. From steel joists and joist girders to steel roof and floor deck, we engineer and manufacture cost-efficient, high-performance building solutions for a range of commercial applications. Our specialists assist you in specifying and engineering the steel joists and deck best suited for your project, whether it's in the data center, warehouse, industrial, education, commercial, multi-family, multi-story office, or large-venue market. With manufacturing facilities across North America, we're built for collaborative, expedited project delivery.	Detailers, Engineering Consulting, Joists and Deck, Structural Systems and Components	http://www.newmill.com

1022	South Atlantic Galvanizing	We provide hot dip galvanizing per ASTM A123 to Fabricators and OEMs all over the country. We have nine strategically located galvanizing plants throughout the south east US. Please make an appointment, or look at our brochure to learn more.	Galvanizers	http://www.southatlanticllc.com
1026	Ben Hur Construction Co.	Founded in 1909, Ben Hur has grown from a local steel erector into a nationwide partner specializing in steel erection and structural steel. We also provide precast concrete and rigging services to support complex scopes. Ben Hur builds across industrial and manufacturing, data centers, commercial, healthcare, aviation, education, and sports and entertainment. Our skilled teams deliver safe, reliable, schedule-driven execution, and we take pride in erecting iconic structures that shape communities and stand the test of time.	Construction and Project Management, Erectors	https://www.benhurconstruction.com/
1030	Steel Tek Unlimited	Steel Tek Unlimited is a leading-edge company in the steel industry that specializes in customizing CAD programs and offers steel detailing to fit your needs. We are proud to say that all of our work is done in the USA with an experienced team of people from the Bridge, Industrial and Commercial industries who understand today's construction market.	Detailers, Software	http://www.steelteku.com
1031	Stainless Structurals	Stainless Structurals is a global producer and supplier of sharp cornered stainless steel and carbon steel structural shapes and special custom profiles. Our standard stainless steel sections replicate the dimensions of the A6 carbon steel platform. Through a multitude of production technologies, including laser welding and extruding, we continue to be a world leader in stainless steel structural shapes and steel profiles. Our value added services include customizations, fabrication, polishing, and more. No matter the size and scope of your project, we can provide the best steel solutions for your project's designs and demands.	HSS Manufacturers, Mills, Stairs/Railings and Miscellaneous Steel, Steel Service Centers	http://www.stainless-structurals.com
1032	Armatherm Thermal Bridging Solutions	Armatherm™ thermal break materials provide a combination of low thermal conductivity and high compressive strength. The range has been designed and tested to prevent thermal bridging. Armatherm™ solutions can be used anywhere a penetration or transition exists in the building envelope creating a thermal bridge. Solutions to minimize heat loss include balcony, canopy, parapet, masonry shelf angle, cladding/Z-girt connections. Armatherm™ has been proven through three dimensional modeling to reduce heat loss in wall assemblies, transitions and structural connections throughout the building.	Bar Coding Systems and Equipment, Bender/Roller, Bolting and Anchoring Systems, Bridge Components and Systems	http://www.armatherm.com
1035	IES, Inc.	For over 30 years, Integrated Engineering Software (IES) has been developing user-friendly structural software that helps you efficiently solve a wide range of real-world problems. Our most versatile product, VisualAnalysis, can analyze and design almost any three-dimensional structure. In addition, we offer a variety of task-specific programs such as ShapeBuilder, VisualFoundation, ConcreteBending, ConcreteSection, VAConnect, and more. Discover why thousands of engineers worldwide depend on Integrated Engineering Software.	Software	https://www.iesweb.com

1040	AZZ Metal Coatings	AZZ's Metal Coatings Segment includes hot-dip galvanizing, spin galvanizing, powder coating, anodizing, and plating to the post-fabrication steel markets. As North America's leading provider of galvanizing for pre-fabricated steel, AZZ operates more than 40 galvanizing locations and five powder coating facilities located across the continent. Our plants maintain many of the largest galvanizing kettles in the U.S., enabling us to efficiently service components up to 62 ft. long and weighing up to 60,000 lbs.	Galvanizers	http://www.azz.com
1041	Autodesk	Autodesk is changing how the world is designed and made. Our technology spans architecture, engineering, construction, product design, manufacturing, media, and entertainment, empowering innovators everywhere to solve challenges big and small. From greener buildings to smarter products to more mesmerizing blockbusters, Autodesk software helps our customers to design and make a better world for all. For more information visit autodesk.com or follow @autodesk.	Software	https://www.autodesk.com/solutions/aec/bim/structural-engineering
1049	Hilti Inc.	Hilti is a world-leading manufacturer and supplier of quality, innovative and specialized tools and fastening systems for the professional user. With more than 1,350 highly trained Hilti account managers and engineers throughout North America and an additional 1,100 Hilti employees nationwide, Hilti expertise covers the areas of powder actuated fastening, drilling and demolition, diamond coring and cutting, measuring, firestopping, screw fastening, adhesive and mechanical anchoring, and strut and hanger systems.	Bolting and Anchoring Systems, Engineering Consulting, Hand Tools/Portable Equipment and Accessories, Software	http://www.hilti.com
1053	Grating Fasteners	Grating Fasteners specializes in producing the G-Clip line of grating fasteners. G-Clips are used to attach grating to structural members using simple hand tools. The entire G-Clip line of fasteners are noted industry-wide as being a cost-effective, fast, and dependable way to fasten grating.	Grating and Grating Fasteners	http://www.gclips.com
1056	Fabreeka International, Inc.	Fabreeka values our working relationships with structural steel designers and builders. Known for over 100 years to provide exceptional engineering knowledge, first-class customer service and high-quality products which include preformed fabric and random oriented fiber pads, slide bearings and thermal breaks. Our team recommends effective solutions for reducing structure-borne noise, thermal bridging and vibration for buildings, bridges, rail track, piping, machinery and more. Let's talk about your next project!	Bridge Components and Systems, Other, Structural Systems and Components	http://www.fabreeka.com
1060	VIRTUELE	VIRTUELE is a cloud-based software platform for the steel industry. Our applications make your work easy and change the way you work. With our data-rich 3D Model based workflows, you will find your project management a lot easier and more streamlined. Our applications address the existing gaps in BIM implementation and reuse the design BIM models at every stage of your project. Our products are customizable to meet your specific needs. We provide on-premise or cloud options for running your customized workflows and applications.	Software	https://www.virtuele.us
1060	Sanria Engineering		Software	https://www.sanriaengineering.com

1064	Complex Structures Group	Originally Chicago Steel Company, rebranded in 2022 as Complex Structures Group (CSG), we are a nationwide construction company delivering steel erection, precast concrete erection, tower crane services, and preconstruction engineering. CSG tackles complex projects from high-rises to hospitals and sports stadiums, demonstrating our ability to solve complex challenges with ingenuity and confidence. Safety is our top priority—NO COMPROMISING SAFETY guides everything we do and ensures safe, reliable solutions.	Construction and Project Management, Erectors	https://www.complex-structures.com
1066	Miro Industries, Inc.	MIRO Industries manufactures solutions for supporting rooftop pipe, conduit, duct and "H" type supports, cable trays, walkways, bridge crossovers, service platforms, ramps and mechanical units that prevent damage to the roof membrane and effectively support a variety of loads and sizes. MIRO has been serving our customers since 1982.	Engineering Consulting, Stairs/Railings and Miscellaneous Steel	https://www.miroind.com/
1100	Oates Metal Deck & Building Products, Inc.	Oates Metal Deck & Building Products, Inc. is your go-to metal deck supplier for quick-turnaround solutions. We stock common steel deck profiles and lengths, cut to size, manage logistics, and ship nationwide. Our team delivers proactive communication, deep product knowledge, and reliable on-time deliveries. We also offer deck detailing for steel erection drawings and provide all required metal deck accessories. Oates Metal Deck keeps your projects moving forward.	Joists and Deck	https://oatesmetaldeck.com/
1101	ENERCALC	ENERCALC has empowered structural and civil engineers since 1982 with trusted, intuitive tools that simplify design and code compliance. Our flagship ENERCALC SEL includes 50+ modules for beams, columns, foundations, walls, and more—helping engineers work faster and deliver with confidence. ENERCALC for Revit integrates directly with Autodesk Revit for seamless model-to-calculation flow. ENERCALC supports users in over 30 countries. Whether you're designing a retail space, warehouse, or infrastructure project, ENERCALC helps you work smarter, not harder—and get home in time for dinner. Visit enercalc.com to learn more.	Software	https://enercalc.com
1107	Sugar Steel	Sugar Steel Corporation has been in business since 1966 serving our customers with exceptional service. Here at Sugar Steel we pride ourselves in our own ability to develop and establish long lasting partnerships with our customers. Our ability to save you time and money is something we pride ourselves on each and every day. Supplying stock material is easy and is what all service centers do daily. At Sugar Steel we can also supply stock material, but we believe in first stage processing. First stage processing has been the key to our continued growth and success since 1966.	Steel Service Centers	http://www.sugarsteel.com
1107	The Infra Group	The Infra Group, comprising of Infra-Metals, Delta Steel, Smith Pipe and Sugar Steel, signifies a powerful, collective network built to be your most reliable single-source partner for all your structural steel requirements. It is the mark of a powerful synergy, combining the deep-rooted relationships and specialized knowledge of each company with the unparalleled resources and reach of an entire group. Simply put, partnering with The Infra Group means more	Steel Service Centers	https://www.infra-metals.com/about-us/the-infra-group/

		access, more resources, and more comprehensive solutions for your most demanding projects; with unmatched inventory, national reach, best-in-class processing and cutting edge technologies.		
1107	Delta Steel	Delta Steel is a customer oriented company, striving to build long lasting and mutually profitable customer relationships. We are committed to continuous improvement in our service, in our products, in safety and in our personnel. We emphasize professional and ethical business dealings with customers, suppliers and employees. Formed in 1963, Delta Steel is a subsidiary of Reliance Steel & Aluminum Co. Delta Steel is one of the largest steel service centers in the southwest United States serving industrial, commercial as well as OEM markets.	Steel Service Centers	https://www.deltasteel.com/
1115	GWY, LLC	Since 1975, GWY has been a global leader specializing in the sales, rental, repair, and calibration of installation tools for structural bolts. Our Turn-of-Nut wrench series are custom designed in partnership with the global leader in electric tool companies, Tone. Using our years of experience in bolt fastening with TONE's years of quality wrench manufacturing, we have created a wrench that meets the high standards of the federal government for structural fastening. Other product lines include the popular shear wrenches for TC bolts, torque wrenches, bolt tension calibrators, rebar tying tools, and hydraulic products.	Erectors, Hand Tools/Portable Equipment and Accessories, Safety Equipment	http://www.gwyinc.com
1117	IDEA StatiCa US LLC	IDEA StatiCa Connection is a revolutionary software for structural design of steel connections/joints. It allows structural engineers to design and check connections of all configurations in minutes. IDEA StatiCa is improving workflow of engineers all around the world by linking to the analysis, BIM and detailing software they use.	Software	http://www.ideastatica.com
1121	CAST CONNEX	CAST CONNEX® is the industry leader in the architectural and structural use of cast steel components in the design and construction of building and bridge structures. Our products include pre-engineered connectors that simplify the design and enhance the performance of structures. We also offer design-build services for custom cast steel nodes and components.	Bridge Components and Systems, Engineering Consulting, Structural Systems and Components	http://www.castconnex.com
1123	PPG Protective & Marine Coatings	PPG delivers protective coating solutions for a wide range of industries. Whether our customers need proven protection from corrosion, high temperatures and fire or want to ensure durability and aesthetic performance that will protect valuable assets, we have the advanced coating systems that can meet the specific needs of any environment.	Coatings and Fire Protection, Other	http://www.ppgpmc.com
1127	SketchDeck.ai	Steel fabricators and erectors know the frustration—countless hours spent on manual takeoffs steal time from the strategic work that grows businesses and builds careers. SketchDeck.ai's LIFT software changes everything. Our AI-powered platform transforms your drawings into accurate steel counts in minutes, achieving 95-99% accuracy while reducing estimating time by up to 80%. With over $25 billion in successful bids completed through LIFT, you join a community of professionals who've reclaimed their time for meaningful work: analyzing complex details,	Software	https://www.sketchdeck.ai/

		developing competitive advantages, and pursuing the challenging projects that drive growth.		
1130	P2 Programs	P2 Programs has developed software built specifically for structural steel fabricators for 40 years. Its flagship product, Steel Tracking System (STSX), is a real-time, web-based application that replaces paper with barcode-driven data capture. STSX tracks steel from receipt through fabrication, shipping, and delivery, providing instant visibility into piece mark status and location. Accessible from mobile devices, tablets, and PCs, STSX helps fabricators improve accuracy, reduce errors, and gain real-time control of shop and yard operations. We are proud to partner with Tekla PowerFab, EJE, and SDS/2. Visit P2 Programs at Booth #1130.	Bar Coding Systems and Equipment, Software	http://www.p2programs.com
1133	Birmingham Fastener	Birmingham Fastener, Inc. is a full-line distributor of structural fasteners for the domestic and international makers. We are proud to be the largest distributor of A325 and A490 bolts in the nation and offer fast turnaround to our customers. With manufacturing facilities in Birmingham, AL, Lavonia, GA, Houston, Texas, Santa Fe Springs, CA, and Katy, TX, we can provide you with non-standard structural bolting and any type of welded assembly, threaded rod, or bent anchor bolt you may need.	Bolting and Anchoring Systems	http://www.bhamfast.com
1141	Sherwin-Williams Protective and Marine	Sherwin-Williams Protective & Marine coatings are ideal for shop application and available through its over 4,700 distribution locations. Our corrosion experts ensure that your projects use technologies that reduce the critical planned timeline and achieves its expected service life. For more information, contact us at swprotective@sherwin.com.	Coatings and Fire Protection	http://protective.sherwin.com
1149	MOLD-TEK Technologies Inc.	Mold-Tek Technologies, Inc. is a part of a 100 million group and stands as one of the foremost Engineering and Technology solutions partners for major players in the market. Our core expertise lies in delivering Structural Steel Detailing and Engineering services, as well as Connection Design Certification and Sealing with BIM Coordination for Steel Fabricators across the USA and Canada. Adhering to ISO9001:2015 certification quality processes, We have consistently fostered enduring partnerships with our clients since our establishment. Our commitment is reflected in substantial internal investments in software development, QC and training.	Detailers, Engineering Consulting	http://www.moldtekengineering.com
1152	Skidmore-Wilhelm	For more than 70 years, Skidmore Wilhelm been the standard tool to verify bolting methods (pre-installation verification). Recently we have developed an online training program to save time and help Ironworkers to safely do their jobs. Please visit our training site at www.skidmore-training.com. We are also the world's leading supplier of devices to test impact wrenches.	Safety Equipment	http://www.skidmore-wilhelm.com
1153	Paramount Roll and Forming, Inc.	Celebrating 60 years of outstanding service and unparalleled capacity. Paramount Roll & Forming, Inc. specializes in the fields of Aerospace, Architectural, Commercial, Construction, Entertainment, Food, Industrial, Oil, Public Art, and Pharmaceutical. We also specialize in curved staircases including installation, heat induction bending, rolling for heavy plates, angles,	Bender/Roller	http://www.paramountroll.com

		tubes, pipes, and beams.		
1157	Danny's Construction Company, LLC	Since 1970, Danny's Construction Company has been an industry leader in complex and schedule-demanding steel erection projects. We have substantial experience in building bridges, sports and events facilities, hospital and medical facilities, as well as a variety of industrial and commercial structures. With this experience, we have built a reputation for surpassing rugged industry standards for quality, safety, and productivity. Strategic office locations across the country provide us the resources available to take on projects regardless of size, location, complexity, or demanding scheduling parameters.	Erectors	http://www.dannysconstruction.com
1159	TwinEngines, Inc.	For 30 years, TwinEngines has focused on helping small and mid-sized manufacturer, supply-chain, and specialty contractors modernize the way they do business. We bridge gaps in off-the-shelf software by unifying those systems across production, ERP, shop floor, logistics, field operations and more which allows us to digitize manual workflows and embed AI, reporting and 3D modeling into the process. Our custom fit solutions drive real-time insight, workflow automation, reduced friction and free up time for already busy teams. We provide flexible, custom solutions that power your process and give you the freedom to run your business your way.	Other, Software	https://www.twinengines.com
1161	SteelSUB, LLC	SteelSUB is a web platform and mobile application built by steel fabricators and erectors for steel fabricators and erectors. SteelSUB streamlines the subcontracting of steel projects extremely efficient with smart technology that connects steel fabricators and erectors to projects that match their project requirements by specialty, locations, certifications, open capacity, and much more. Fabricators are able to post projects and/or open capacity, both publicly or privately, in our Fabrication, Erection, and Open Capacity Marketplaces and have immediate access to the hundreds of fabricators and erectors we currently have in our network	Other, Software	https://steelsub.com/
1163	JITECH Associates Inc.	JITECH is dedicated to creating value by providing top-tier engineering and steel detailing solutions to the structural steel industry. We are committed to fostering a culture of continuous improvement and ensuring customer satisfaction. Our goal is to be a leading force in driving positive change, pushing the boundaries of innovation toward a more sustainable future.	Detailers	https://jitech.us
1167	Star Software	We eliminate complex paperwork with AI, so your team can sell faster, process smarter, and stay compliant. >Sales and Business Development - Capture data from drawings and large supporting documents in minutes. Identify required processes and quality checks automatically, then generate faster and more accurate quotes. Finance - Automate AP and AR workflows with AI built for metal and steel businesses. Reduce manual entry, improve processing speed, and increase financial accuracy. Quality / Opr - Extract and verify data from incoming test certs and MTRs. Instantly flag out-of-spec chemical and mechanical properties, strengthen compliance, -NCR	Other, Software	https://starsoftware.co/

1169	Reliance Piles		Bolting and Anchoring Systems, Structural Systems and Components	https://www.reliancepiles.com
1211	Nucor Tubular Products	With seven locations located across the United States and a vast array of sizes and products produced, Nucor Tubular Products can meet any specification your project requires. Their product offerings include hollow structural sections (HSS), pipe piling, sprinkler and standard pipe, mechanical tubing and conduit. Their steel tube products are produced with Nucor's circular, electric arc furnace (EAF) technology, making them some of the lowest embodied carbon material options in the market.	HSS Manufacturers	https://www.nucortubular.com/
1211	Nucor - Plate Mill Group	Nucor's steel plate mills can produce steel plate in a wide range of grades, gauges and sizes to meet precise specifications. Production capabilities include TMCP (with accelerated cooling), normalized and quenched & self-tempered (QST). Nucor produces industry-leading plate sizes to reduce shop splicing for efficient fabrication and construction, and suitable for long-span bridges and SpeedCore designs.	Mills	https://nucor.com/products/steel/plate
1211	Nucor Skyline	As the premier leader of steel pile systems and solutions, Nucor Skyline's extensive catalog of steel products includes hot and cold rolled sheet piles, pipe piles, H-piles, combined wall systems, and geostructural products. With strategic stocking locations throughout the Americas, Nucor Skyline has established a material delivery network that is primed for immediate response offering barge, rail, and truck transportation options for cost effectiveness and on-time delivery. In addition, Nucor Skyline offers engineering support in project design and construction.	Bridge Components and Systems, Structural Systems and Components	http://www.nucorskyline.com
1211	Nucor - Corporation	Nucor is North America's largest steel manufacturer and recycler. For over 50 years, Nucor has been pioneering sustainable steelmaking with electric arc furnace (EAF) technology and offers one of the broadest portfolios of steel and steel products with 300+ operating facilities across the United States, Canada and Mexico. Steel products produced: bar, beam, sheet, plate, HSS, conduit, sprinkler pipe, grating, joists, deck, racking, piling, rebar fabrication and installation, fasteners, metal building systems, data center systems, insulated metal panels, overhead and high-performance doors, wire products and utility structures.	Bridge Components and Systems, Joists and Deck, Structural Systems and Components	http://www.nucor.com
1211	Nucor - Beam Mill Group	Nucor has two beam steel mills: Nucor-Yamato Steel Company in Blytheville, Arkansas and Nucor Steel Berkeley in Huger, South Carolina. Both mills manufacture a wide range of structural steel shapes, H-piles , sheet piling, angles and channels. The Nucor-Yamato mill is the only domestic producer of Aeos® ASTM A913 high-strength structural steel.	Mills	http://www.nucoryamato.com
1211	Nucor - Fastener Division	Nucor Fastener manufactures high-quality hex head cap screws, finished hex nuts, structural bolts, nuts, Tru-Tension® assemblies and flange bolts. Utilizing build-to-print capability, head styles, dimensions, grades and finishes can be customized to meet individual specifications. With one of the largest stocking inventories in the country and through strategic	Bolting and Anchoring Systems	http://www.nucor-fastener.com

		alliances with distributors across the United States Nucor Fastener provides the most reliable, highest quality structural bolting solutions for steel fabrication and construction.		
1211	Nucor Vulcraft/Verco Group	Vulcraft and Verco, part of Nucor Corporation, are one of North America's leading manufacturers of engineered steel joists, joist girders, decking and bar grating. We provide practical solutions for the construction industry, offering not just steel products but also expertise. Our team focuses on providing high-quality, low-embodied carbon steel products and user-friendly design resources that simplify project planning and support your sustainability goals. From project design to delivery, we ensure responsive customer service, design assistance and engineering support to help you build efficiently and sustainably.	Joists and Deck, Structural Systems and Components	http://www.vulcraft.com
1221	Trimble	Tekla software solutions from Trimble power the construction industry by providing technology needed to increase performance, reduce costly errors and promote greater collaboration on projects. Users can produce high-quality 3D models and construction documentation—as well as create and manage structural analysis, design, detailing and fabrication data. Designed with a commitment to improve digital construction information workflows, Tekla software gives a true competitive edge to construction industry professionals.	Detailers, Erectors, Software, Stairs/Railings and Miscellaneous Steel	https://www.trimble.com/en/products/tekla
1226	CAI Software	Increase visibility to materials with Job-site Tracking and Traceability while maximizing your workforce with Labor Tracking. Streamline and automate work flows with bar code or RFID scans while reducing errors with real-time data validations. Track Work-in-Progress (WIP) and validate loads against Tekla PowerFab (FabSuite), or other business systems.	Bar Coding Systems and Equipment, Software	https://caisoft.com/products/radley-material-traceability/
1228	Regal Industrial Corp.	YOUR PARTNER IN STEEL PROTECTION Regal Industrial delivers comprehensive coating solutions for structural steel and bridge fabricators: abrasive blasting, shop coat primers, high performance coatings, intumescent fireproofing, and metallizing. With QP-1, QP-3 and QP-6 certifications, three strategic locations, 300,000 square feet of production space, and 90 acres of area for staging and deliveries, we handle projects of any scale with the quality workmanship and technical expertise you demand.	Coatings and Fire Protection	https://regalindustrial.com/
1231	Atlas Tube	Atlas Tube is North America's leading manufacturer of steel hollow structural sections (HSS). We offer the widest size range in the industry, including sections up to 22" square, 28" round, and 34 × 10" rectangular, with wall thicknesses up to 1". Our expert engineering team provides product education and connection insights, complemented by our HSS Connections Hub™—a complimentary resource designed to help you create more efficient, fabrication-friendly HSS connections. Atlas Tube products are available in standard, custom, and extra-long lengths, ensuring you have the right solution for your project.	HSS Manufacturers, Welding and Stud Material	http://www.atlastube.com

1241	Applied Bolting Technology, Inc.	We make Squirter DTIs, i.e., load cells, that assure compliance with bolting standards & specs. Torque, Turn-of-Nut, and TCs can all produce false positive tension, and regularly do: Torque scatter is ±40%, for new bolts, and worse for weathered. Relying on torque is optimism, at best. TCs are torque bolts that are adversely affected by cold or wet weather. Turn-of-Nut can be defeated by mispresenting turn angle, regardless of turn applied. DTIs read load. If a bolt is tight, a Squirter DTI will show it, independent of weather, torque, angle, tool, or skill.	Bolting and Anchoring Systems, Bridge Components and Systems, Safety Equipment, Structural Systems and Components	http://www.appliedbolting.com
1245	Lindapter	Over 90 years, Lindapter has pioneered the design and manufacture of Structural Steel Clamping Systems and HSS Blind Fasteners, enabling faster steel construction. Products include the Hollo-Bolt, the HSS expansion bolt approved by ICC-ES for all Seismic Design Categories (A through F); while the Girder Clamp is approved for quickly connecting W & S beams. Lindapter connections eliminate the need for time-consuming drilling or welding in the field and reduce time and labor costs.	Bolting and Anchoring Systems, Engineering Consulting, Grating and Grating Fasteners	http://www.Lindapter.com
1251	Techflow Inc.	Techflow Inc., based in Duluth GA, with support staff located in our offices in India, offers the best in 3D steel detailing, BIM coordination, connection design, pre-detailing setup and estimating. With project management/coordination in Duluth coupled with 400 detailers and checkers in India, we provide the best in US quality and competitive pricing, using Tekla, SDS/2 and BoCad. Techflow holds both AISC and NISD memberships, with NISD IDC-certified detailers on staff. Techflow is a QPP-certified company as recognized by the NISD ensuring quality detailing to your standards, on time.	Detailers, Engineering Consulting, Stairs/Railings and Miscellaneous Steel	http://www.techflowengg.com
1252	COMSLAB	COMSLAB is a long-span and shallow composite floor system that helps structural steel compete with the low floor-to-floor concrete designs. COMSLAB is a lightweight assembly that has UL listed EXPOSED and UNRESTRAINED ratings of 1, 2 and 3 hrs for spans of 30+ feet! It's ideal for all elevated floor construction such as hotels, schools, office, HIGH-RISE, multi-residential and medical buildings. COMSLAB products are in compliance for NYC High Rise and LA RR approvals.	Joists and Deck	https://www.bmp-group.com/products/comslab
1256	IKG	IKG® is a leading manufacturer of safety flooring and access infrastructure solutions serving the United States. With more than 120 years of experience, IKG designs and fabricates bar grating, anti-slip flooring, stair systems, platforms, ladders, and custom access solutions for architectural, industrial, and commercial applications. Serving industries including manufacturing, transportation, energy, and construction, IKG delivers engineered, project-specific solutions backed by in-house expertise. Owned by a joint venture between Meiser and Dutco, IKG is the largest grating manufacturer and is committed to safety, quality, and performance.	Grating and Grating Fasteners, Stairs/Railings and Miscellaneous Steel	https://ikg.com/

1257	Structures Online	Established in 2000, Structures Online (SOL) is one of the oldest and most trusted AISC-certified steel detailing and structural engineering firms operating out of India. With a team of 550+ professionals, SOL is also among the largest in the industry. Decades of experience power our work. Our senior leadership has handled nearly every structural challenge, supported by high retention of seasoned talent. Through structured knowledge capture and training, this expertise is preserved and scaled. This makes SOL to deliver consistent, reliable, high-quality solutions when it matters most.	Detailers	https://www.structures.online/
1260	SteelCoded LLC	SteelCoded is a real-time steel tracking platform built specifically for structural steel fabricators. Using QR codes and mobile devices, SteelCoded tracks material from receiving through fabrication, shipping, and erection. Fully integrated with Trimble Tekla PowerFab, it extends your existing systems with live shop-floor visibility, multi-plant dashboards, and accurate production data. Designed alongside high-volume fabricators, SteelCoded eliminates manual tracking, reduces guesswork, and gives teams a single source of truth for where the steel is right now.	Bar Coding Systems and Equipment, Software	https://www.steelcoded.com/
1262	Caldim Tech Services LLC	In the competitive steel detailing and connection design landscape of the American construction industry, Caldim Tech Services stands out through expertise, innovation, and precision. With 60+ skilled detailers using the latest SDS2 and Tekla versions, we deliver accurate, reliable, and efficient steel detailing solutions. Our client-centric approach ensures quality and timely delivery on every project. Supported by an in-house software team, we offer cost-effective, customized solutions for fabricators. Choosing Caldim means choosing a trusted partner committed to excellence.	Detailers, Engineering Consulting, Software, Stairs/Railings and Miscellaneous Steel	https://caldimengg.com/
1263	Quality Emphasis Steel Solutions Pvt Ltd.	QESS is an organization that focuses on tradition of civil excellence, Understanding of design intent of structural steel drawings, documents and specifications. Preparing the shop and erection drawings with accuracy and in time. Our philosophy minimizes the clients risk and blends in every Structural steel detailing discipline. Our success is measured by the degree of our client's satisfaction. QESS has a reputation for excellence, innovative details and attention to detail. We aim to provide creative, sustainable and cost effective architectural and engineering solutions through innovative thinking.	Detailers, Engineering Consulting	http://www.qessindia.com
1266	Grupo Gonza	Design and fabrication of JOIST and JOIST GIRDERS, certified by the SJI.	Engineering Consulting, Erectors, Joists and Deck, Steel Service Centers	https://gonzaglobal.com/en/
130	Be Pro Be Proud, Inc.	Be Pro Be Proud is bringing a new generation of pride, progress, and professionals to America’s skilled workforce. Staged on middle & high school campuses, our state-of-the-art, custom-built Mobile Workshops allow students to utilize augmented & virtual reality simulators to experience skilled, technical roles in highly engaging ways. Be Pro Be Proud is a national program first launched by the Arkansas State Chamber of Commerce in 2016 to address its own workforce shortages. Since 2020, six additional states have joined	Career Services	http://www.beprobeproud.org/

		our National Network as we continue to grow a collaborative force working to address state & national workforce challenges.		
1315	Nucor Vulcraft/Verco Group	Vulcraft and Verco, part of Nucor Corporation, are one of North America's leading manufacturers of engineered steel joists, joist girders, decking and bar grating. We provide practical solutions for the construction industry, offering not just steel products but also expertise. Our team focuses on providing high-quality, low-embodied carbon steel products and user-friendly design resources that simplify project planning and support your sustainability goals. From project design to delivery, we ensure responsive customer service, design assistance and engineering support to help you build efficiently and sustainably.	Joists and Deck, Structural Systems and Components	http://www.vulcraft.com
1315	Nucor - Fastener Division	Nucor Fastener manufactures high-quality hex head cap screws, finished hex nuts, structural bolts, nuts, Tru-Tension® assemblies and flange bolts. Utilizing build-to-print capability, head styles, dimensions, grades and finishes can be customized to meet individual specifications. With one of the largest stocking inventories in the country and through strategic alliances with distributors across the United States Nucor Fastener provides the most reliable, highest quality structural bolting solutions for steel fabrication and construction.	Bolting and Anchoring Systems	http://www.nucor-fastener.com
1315	Nucor - Beam Mill Group	Nucor has two beam steel mills: Nucor-Yamato Steel Company in Blytheville, Arkansas and Nucor Steel Berkeley in Huger, South Carolina. Both mills manufacture a wide range of structural steel shapes, H-piles , sheet piling, angles and channels. The Nucor-Yamato mill is the only domestic producer of Aeos® ASTM A913 high-strength structural steel.	Mills	http://www.nucoryamato.com
1315	Nucor - Corporation	Nucor is North America's largest steel manufacturer and recycler. For over 50 years, Nucor has been pioneering sustainable steelmaking with electric arc furnace (EAF) technology and offers one of the broadest portfolios of steel and steel products with 300+ operating facilities across the United States, Canada and Mexico. Steel products produced: bar, beam, sheet, plate, HSS, conduit, sprinkler pipe, grating, joists, deck, racking, piling, rebar fabrication and installation, fasteners, metal building systems, data center systems, insulated metal panels, overhead and high-performance doors, wire products and utility structures.	Bridge Components and Systems, Joists and Deck, Structural Systems and Components	http://www.nucor.com
1315	Nucor Skyline	As the premier leader of steel pile systems and solutions, Nucor Skyline's extensive catalog of steel products includes hot and cold rolled sheet piles, pipe piles, H-piles, combined wall systems, and geostructural products. With strategic stocking locations throughout the Americas, Nucor Skyline has established a material delivery network that is primed for immediate response offering barge, rail, and truck transportation options for cost effectiveness and on-time delivery. In addition, Nucor Skyline offers engineering support in project design and construction.	Bridge Components and Systems, Structural Systems and Components	http://www.nucorskyline.com

1315	Nucor - Plate Mill Group	Nucor’s steel plate mills can produce steel plate in a wide range of grades, gauges and sizes to meet precise specifications. Production capabilities include TMCP (with accelerated cooling), normalized and quenched & self-tempered (QST). Nucor produces industry-leading plate sizes to reduce shop splicing for efficient fabrication and construction, and suitable for long-span bridges and SpeedCore designs.	Mills	https://nucor.com/products/steel/plate
1315	Nucor Tubular Products	With seven locations located across the United States and a vast array of sizes and products produced, Nucor Tubular Products can meet any specification your project requires. Their product offerings include hollow structural sections (HSS), pipe piling, sprinkler and standard pipe, mechanical tubing and conduit. Their steel tube products are produced with Nucor’s circular, electric arc furnace (EAF) technology, making them some of the lowest embodied carbon material options in the market.	HSS Manufacturers	https://www.nucortubular.com/
1321	International Design Services, Inc.	IDS is committed to delivering the highest quality of detailing and connection design services. Our over 500 team members, including connection design engineers, detailers, & supporting staff provide ample manpower to support any project type and schedule. Our shop drawings and calculations are produced under the direct supervision of licensed professional engineers. In addition to 3D and BIM Models in SDS/2 or Tekla, IDS provides NC1, CNC, DXF, DSTV, and other production file formats.	Detailers, Engineering Consulting, Software	http://www.ids-inc.net
1321	GIZA	GIZA is a connection design software that covers more than 730 different connection types in the shear, moment, vertical brace, horizontal brace, and miscellaneous categories. Compliant to AISC 14th, 15th editions - ASD & LRFD methods, GIZA provides a comprehensive set of calculations with references to all applied codes. We offer integration with Tekla Structures and Tekla Structural Designer but can also be used as a standalone option. GIZA has been in use for over 10 years and has successfully designed thousands of connections on thousands of projects over that time. Try it yourself free for 15 days! www.gizasteel.	Detailers, Engineering Consulting, Software, Stairs/Railings and Miscellaneous Steel	http://www.gizasteel.com
1331	Cerbaco Ltd.	Cerbacos line of 500+ configurations of non-metallic weld backings permit finished-quality, full-penetration welds from one side. For use with structural steel, shipbuilding, pipeline, pressure vessel, and tank manufacturing. Backings work with MIG, TIG, Stick Electrode, Sub Arc and Flux Core welding processes to weld carbon and alloy steel, stainless, and aluminum. Where one-sided welding is not desirable, backings eliminate arc gouging or heavy grinding prior to second-side welding.	Welding and Stud Material	http://www.cerbaco.com
1333	Chicago Metal Rolled Products	Family-run since 1908, we work with our customers to bend and roll all steel grades, sizes and shapes including angles, bars, beams, channels, pipes, tubes, rail, sheet and plate. With two plants, 60+ rolling machines and over 120 years of experience, our highly trained workforce and state-of-the-art equipment handle the most challenging jobs quickly with precision and accuracy. We have earned the respect of over 10,000 satisfied customers delivering 99% error-free	Bender/Roller	http://www.cmrp.com

		tight bends holding minimal tolerances even for shapes with very complex geometries.		
1341	Canam	With 65 years of experience and more than 326,000 projects, Canam's expertise is rivaled only by its ambitions. We specialize in designing and manufacturing steel joists and decks for the North American construction industry. Our distinctive BuildMaster collaborative approach is transforming building design and construction, offering up to a 20% reduction in erection time. Backed by a robust team comprising over 100 engineers and more than 650 structural steel detailers and drafters, Canam goes beyond being a mere supplier; we emerge as your ideal partner for achieving success.	Bolting and Anchoring Systems, Detailers, Joists and Deck, Other	https://www.canam.com/
1349	Anatomic Iron Steel Detailing	Anatomic Iron Steel Detailing specializes in complex structural steel detailing, design-detailing, connection design, design consulting and 3D modeling. We operate both Tekla and SDS2. We also complete steel erection animations and 3D rendering. Our team oriented approach with our staff and clients has resulted in an outstanding track record of completing high profile complex projects accurately and on time. With over 300 staff, we can detail over 10,000 tons of structural steel per month. Please review our website at www.anatomiciron.com or call 510-984-4425 to discuss our project history.	Bridge Components and Systems, Detailers, Engineering Consulting, Structural Systems and Components	http://www.anatomiciron.com
1353	Field Fastener	Field Fastener is a full-service fastener supplier supporting the structural industry’s most demanding projects—while also serving a wide range of industrial applications. Celebrating 50 years of service, Field combines nationwide locations, in-house testing, and deep application expertise to deliver structural fasteners, project sequencing, and supply chain solutions that keep steel moving and schedules on track.	Bolting and Anchoring Systems	https://www.fieldfastener.com
1357	Cleveland City Forge	Cleveland City Forge, an innovative American Manufacturing and Engineering Company, combines product development with production to produce standard and custom structural steel components that include Forging, Machining and Distribution. Along with custom components, standard products include: Clevises, Clevis Pins and Recessed Pins, Turnbuckles, Turnbuckles w/Fittings, Threaded Rods, Rod Ends, EyeNuts, EyeBolts, Yokes, Swage: Sockets, Sleeves, Buttons & Studs, Heavy Hex Nuts. Our products can also be grouped to create complete Assemblies ready for installation.	Bridge Components and Systems, Structural Systems and Components	http://www.clevelandcityforge.com
1362	Superior Industrial Insulation Company	Superior Industrial Insulation is a full service Fireproofing contractor and performs all type of steel protection. That protection includes intumescent paint, spray on fireproofing and wool products and protective coatings. Our company has the capacity to in house prep, primer and fire rate steel either in a shop applied format or on-site.	Coatings and Fire Protection	https://www.Superior-Insulation.com

1411	Nucor Tubular Products	With seven locations located across the United States and a vast array of sizes and products produced, Nucor Tubular Products can meet any specification your project requires. Their product offerings include hollow structural sections (HSS), pipe piling, sprinkler and standard pipe, mechanical tubing and conduit. Their steel tube products are produced with Nucor's circular, electric arc furnace (EAF) technology, making them some of the lowest embodied carbon material options in the market.	HSS Manufacturers	https://www.nucortubular.com/
1411	Nucor - Plate Mill Group	Nucor's steel plate mills can produce steel plate in a wide range of grades, gauges and sizes to meet precise specifications. Production capabilities include TMCP (with accelerated cooling), normalized and quenched & self-tempered (QST). Nucor produces industry-leading plate sizes to reduce shop splicing for efficient fabrication and construction, and suitable for long-span bridges and SpeedCore designs.	Mills	https://nucor.com/products/steel/plate
1411	Nucor Skyline	As the premier leader of steel pile systems and solutions, Nucor Skyline's extensive catalog of steel products includes hot and cold rolled sheet piles, pipe piles, H-piles, combined wall systems, and geostructural products. With strategic stocking locations throughout the Americas, Nucor Skyline has established a material delivery network that is primed for immediate response offering barge, rail, and truck transportation options for cost effectiveness and on-time delivery. In addition, Nucor Skyline offers engineering support in project design and construction.	Bridge Components and Systems, Structural Systems and Components	http://www.nucorskyline.com
1411	Nucor - Corporation	Nucor is North America's largest steel manufacturer and recycler. For over 50 years, Nucor has been pioneering sustainable steelmaking with electric arc furnace (EAF) technology and offers one of the broadest portfolios of steel and steel products with 300+ operating facilities across the United States, Canada and Mexico. Steel products produced: bar, beam, sheet, plate, HSS, conduit, sprinkler pipe, grating, joists, deck, racking, piling, rebar fabrication and installation, fasteners, metal building systems, data center systems, insulated metal panels, overhead and high-performance doors, wire products and utility structures. 1411	Nucor - Fastener Division	Nucor Fastener manufactures high-quality hex head cap screws, finished hex nuts, structural bolts, nuts, Tru-Tension® assemblies and flange bolts. Utilizing build-to-print capability, head styles, dimensions, grades and finishes can be customized to meet individual specifications. With one of the largest stocking inventories in the country and through strategic alliances with distributors across the United States Nucor Fastener provides the most reliable, highest quality structural bolting solutions for steel fabrication	Bolting and Anchoring Systems	http://www.nucor-fastener.com

		and construction.		
1411	Nucor Vulcraft/Verco Group	Vulcraft and Verco, part of Nucor Corporation, are one of North America's leading manufacturers of engineered steel joists, joist girders, decking and bar grating. We provide practical solutions for the construction industry, offering not just steel products but also expertise. Our team focuses on providing high-quality, low-embodied carbon steel products and user-friendly design resources that simplify project planning and support your sustainability goals. From project design to delivery, we ensure responsive customer service, design assistance and engineering support to help you build efficiently and sustainably.	Joists and Deck, Structural Systems and Components	http://www.vulcraft.com
1421	DuraFuse Frames	DuraFuse Frames is the next evolution in steel moment connections. Working with our engineering team and implementing our field-bolted connection will minimize steel tonnage, simplify fabrication, and shorten the erection schedule for any project. In seismic-controlled projects, the resilience advantage is unmatched and comes with the additional benefit of eliminating lateral braces and minimizing the protected zone. Our qualification-tested connection retrofit solutions are unequaled. Let us collaborate with your team to find the optimal solution for your project.	Engineering Consulting, Erectors, Structural Systems and Components	https://www.durafuseframes.com/
1427	Triple-S Steel / Intsel Steel	Triple-S Steel Holdings is a family of steel service centers. You know us through our structural steel brands: Triple-S Steel Supply and Intsel Steel Distributors. Our full line service centers keep over 200,000 tons of inventory in stock. Beams, plate and other structural are our stock in trade, and the fabricator is our partner to get more steel into buildings every day. We are proud to support the AISC in its mission of promoting the use of steel! Triple-S is helping our customers by modernizing our equipment and how we process materials before it leaves our facility. Give us a call to find out more!	Steel Service Centers	http://www.sss-steel.com
1430	Bentley Systems, Incorporated	Bentley Systems (Nasdaq: BSY) is the infrastructure engineering software company. We provide innovative software to advance the world's infrastructure – sustaining both the global economy and environment. Our industry-leading software solutions are used by professionals, and organizations of every size, for the design, construction, and operations of roads and bridges, rail and transit, water and wastewater, public works and utilities, buildings and campuses, mining, and industrial facilities. Bentley Systems employs more than 4,500 colleagues in 186 countries.	Engineering Consulting, Software	http://www.bentley.com
1433	CoreBrace	CoreBrace buckling-restrained braces (BRBs) are a cost-effective solution to improve the seismic performance of structures. This highly ductile system has been used in thousands of projects worldwide for earthquake risk mitigation. CoreBrace's expert staff works closely with owners, architects, engineers, fabricators, and erectors to meet their design and construction requirements and is committed to providing braces to the highest level of quality. Our extensive research program focuses on sustainable and resilient designs of structures in high seismic zones.	Structural Systems and Components	http://www.corebrace.com

1441	LeJeune Bolt Company	LeJeune Bolt Company is the leading supplier of structural fasteners and tools and the exclusive source for the ASTM F3148 TNA® Torque + Angle Fastening System. With ASTM F3148 and the Combined Method approved by RCSC—and a formal publication forthcoming from AISC and AREMA—F3148 TNA bolt assemblies using Torque & Angle installation can be specified with confidence. We celebrate our 50th anniversary focused on delivering proven solutions that improve installation efficiency, strengthen quality control, and reduce total installed cost. Visit us at Booth 1441 for a live demonstration of the F3148 TNA® Torque + Angle Fastening System.	Bolting and Anchoring Systems, Hand Tools/Portable Equipment and Accessories, Marking and Traceability, Structural Systems and Components	https://www.tightenright.com/
1445	Steel and Pipe Supply	Steel and Pipe Supply Company, Inc. distributes high-quality carbon steel to customers across the Midwest. We keep a large inventory in multiple warehouses, provide value-added processing services, and maintain a strong distribution network - all to help our customers get the steel they need quickly, efficiently, and at a competitive price. We have warehouses and processing facilities optimally located in and around: Houston, Longview, Waco, Lubbock and Victoria, TX. Tulsa, OK. St. Louis, MO. Kansas City, KS.	Steel Service Centers	http://www.SteelAndPipe.com
1448	KCI Technologies, Inc.	KCI Technologies, formerly McLaren Engineering Group, is a 100% employee-owned, multi-discipline engineering, consulting, and construction firm serving building, industrial, transportation, marine, and energy markets nationwide. Our services include structural engineering for steel buildings and bridges, complex connection design, steel detailing services, crane and rigging engineering, shoring and temporary works, erection stability, and construction means, methods, and sequencing. With offices across the U.S. and licensure nationwide, KCI delivers practical, constructible solutions for complex projects.	Construction and Project Management, Detailers, Engineering Consulting, Materials/Engineering/Testing and Inspection	https://www.kci.com/
1449	Shandong Hanpu Machinery Industrial Co., Ltd.	China's most professional Electric Torque wrench and Shear wrench manufacturer. Accept customized production. Newly products keep on the way.	Bolting and Anchoring Systems, Bridge Components and Systems, Construction and Project Management, Hand Tools/Portable Equipment and Accessories	https://www.hanpuindustrial.com/
1451	Max Weiss Co., LLC	Our unique structural rolling/forming process and skilled craftsmen provide exceptional quality and tight radius bending with very minimal distortion or marring. We have the capability of rolling and forming a wide variety of sizes of structural steel sections and tubing easy way, hard way, and off-axis to accommodate the most difficult and unique projects. We also offer many value-added fabrication services including splitting, notching, straightening, trimming, drilling, certified welding and much more.	Bender/Roller	http://www.maxweiss.com
1452	Fleet Hoster	Fleet Hoster is an Elite Geotab Certified Partner delivering industry-leading fleet management and asset tracking solutions across North America. Backed by over 38 years of combined telematics experience, we help businesses improve visibility, safety, and efficiency. Powered by Geotab, the #1 telematics platform worldwide, we provide scalable, data-driven solutions for fleets, equipment, and assets. From	Other, Safety Equipment, Software	https://fleethoster.com

		construction to enterprise operations, Fleet Hoster helps you track smarter and operate with confidence.		
1456	HK Laser & Systems	HK America Inc. is the North American subsidiary of HK Co., LTD. Our 27,000 sq-ft technical and demo center is located in Chicago, IL, where the latest HK products are displayed for demonstration. The service parts inventory room stores plenty of parts to support all of North America, providing same-day shipping. HK also has additional service centers located in Charlotte, NC and Brea, CA. With over 15 sales networks and over 500 laser machines installed at customer sites throughout the U.S., Canada and Mexico, HK is providing quality service and product support to customers.	Materials/Engineering/Testing and Inspection, Other, Stationary Fabrication Equipment, Steel Service Centers	http://www.hk-us.com
1457	Bull Moose Tube Company	Bull Moose Tube produces Hollow Structural Sections (HSS) ranging from 1" - 14" square (and rectangular equivalents) in wall thicknesses up to 0.750" – creating value for a wide-range of applications. As one of North America's largest HSS producers, we're able to offer products that meet a variety of specifications including ASTM A500, A847, A1076, A1085, A1110, A1112 (up to 110 KSI), CSA G40 and EN 10219.	HSS Manufacturers	http://www.bullmoosetube.com
1507	Qnect LLC	Qnect partners with project teams to create early connected steel models. These early connected models contain more information than typical 3D models used for bidding. The supplemental information in an early connected model results in lower and tighter bids, helps reduce project schedules and cost overruns, and ultimately aids in expediting the process of designing, fabricating and erecting structural steel. To learn more about how structural steel project teams use Qnect, please visit: https://www.qnect.com/customer-success-stories	Software	http://www.qnect.com
1511	Simpson Strong-Tie Co.	Simpson Strong-Tie, one of the largest suppliers of structural building products and technology in the world, is dedicated to helping build safer and stronger structures. We offer the commercial steel industry a suite of products backed by research, development, and rigorous testing, combined with our software offerings and services. Visit us www.strongtie.com.	Other, Software, Structural Systems and Components	http://www.strongtie.com
1515	EVER Seismic	Not just another buckling-restrained brace manufacturer! These are BRBs with Strain Control Technology and robotic-level precision manufacturing. All-steel, lightweight, smaller BRBs that are easier to erect and can downsize your crane. BRBs + next level customer service and connection optimization that you can $ee. Contact us today for assistance on your next project!	Structural Systems and Components	http://www.everseismic.com
1520	JMT Consultants Inc.	JMT Consultants was founded in 2008 to provide quality and reliable steel and concrete detailing and design services to the construction industry. Working directly for developers, engineering firms, general contractors and fabricators, we are a full service company, operating with integrity, loyalty and treating each customer how we would want to be treated. These principles have led JMT Consultants to become an award winning, industry leader. We believe in a collaborative, organized and efficient process to complete projects both on schedule and on budget.	Construction and Project Management, Detailers, Engineering Consulting, Software	http://www.jmtconsultants.com

1521	RISA	RISA has been developing leading-edge structural design and optimization software for over 30 years. Our products are used by 24 of the top 25 US design firms in over 70 countries around the world for towers, skyscrapers, airports, stadiums, petrochemical facilities, bridges, roller coasters and everything in between. The seamless integration of RISAFloor, RISA-3D, RISAFoundation and RISAConnection creates a powerful, versatile and intuitive structural design environment, ready to tackle almost any design challenge.	Software	http://www.risa.com
1521	SDS2 by ALLPLAN	SDS2 is a leading provider of steel design software. A product of ALLPLAN, we support steel projects in the BIM cycle from design to construction and empower our users to deliver at the highest levels of quality and efficiency.	Detailers, Software	http://www.sds2.com
1521	Bluebeam	Trusted by nearly 4 million individuals in more than 165 countries, Bluebeam's smart, intuitive solutions advance the way building professionals work, manage and collaborate on projects digitally. Precisely detail, mark up, and review steel plans with our easy-to-use tools, ensuring smooth fabrication and erection. Founded in 2002 in Pasadena, CA, Bluebeam has offices across the globe and a deep understanding of the steel industry's needs. Bluebeam is part of the Nemetschek Group. Download a free 30-day trial on our website and see how Bluebeam can revolutionize your projects fostering trust and efficiency across the project lifecycle.	Construction and Project Management, Software	https://www.bluebeam.com
1521	Nemetschek Group	The Nemetschek Group is a leading global software provider for the Architecture, Engineering, Construction, and Operation (AEC/O) and media industries, driving digital transformation through Building Information Modeling (BIM) and AI. Founded in 1963, the Munich-based company offers solutions for the entire building lifecycle, serving over 7 million users across 15+ brands, including Allplan, Bluebeam, Maxon, and Solibri. Core Industries: Focused on the AEC/O industry (design, construction, management) and Media/Entertainment. Key Products & Technology: BIM-based design, structural analysis, construction management, digital twins, AI, and 3D.	Software	https://www.nemetschek.com/en
1531	Gerdau	Gerdau Long Steel North America (GLN) manufactures merchant bar, structural steel, piling, special bar quality and rebar products for the agricultural, automotive, civil construction, distribution, energy, industrial, and mining markets. GLN operates six mills in the United States and three in Canada, and is a wholly owned subsidiary of Gerdau S.A.	Mills	http://www.gerdau.com
1540	Meyer Borgman Johnson	Meyer Borgman Johnson (MBJ) provides PE licensed steel connection design, connected model delivery, erection engineering, stair & rail engineering, and related services to the structural steel community. We have one of the largest connection teams servicing the US and Canadian markets. Providing consistent quality services, economic solutions and timely results are our top priorities. These services are a subset of our broad structural engineering services for the built environment. We have 80+ structural engineers and are	Engineering Consulting	http://www.mbjeng.com

		licensed throughout the US and Canada.		
1541	CADeploy, Inc.	CADeploy, Inc. (ISO 9001:2015) is a California corporation and member of AISC, NISD, MBMA, and ACI. We offer Steel Engineering, Steel Detailing, Estimation services (Structural Steel/PEMB/Rebar), and As-built Services & HSE Studies (Oil & Gas) to 400+ clients spread across the globe. Our team of 750+ engineers/personnel specializes in Structural and Miscellaneous projects across Industrial, Commercial, Residential and other industries. We work on TEKLA, SDS/2, Advance Steel, AutoCAD, RebarCAD, Revit, PDS, PDMS, and other widely used platforms. We have completed more than 3200+ projects on time with 100% quality.	Detailers, Engineering Consulting	http://www.cadeploy.com
1542	Fontana Fasteners, Inc.	Fontana Fasteners, Inc., a Fontana Gruppo company, produces LE USA® fasteners and provides customers with high-quality cold-formed fasteners produced from steel melted and rolled exclusively in the USA. In fact, Fontana Fasteners Inc. is the only North American full-service manufacturer and provider of structural bolts, nuts, washers, and TC assemblies.	Bolting and Anchoring Systems, Engineering Consulting, Other, Structural Systems and Components	http://www.fontanagruppoagtna.com
1544	Red Cedar Steel	We build our people, our future, and our world by erecting steel Nationwide.	Erectors	https://www.redcedarsteel.com
1546	Baco Enterprises Inc.	Baco Enterprises Inc. stands proudly as the only bolt manufacturer in NYC. The premier supplier of high quality structural bolts, fasteners, and related materials that bring structures to life. We also supply steel shapes, plate, threaded rod and anchor bolts, misc. steel fabrication, safety and related products.	Bender/Roller, Bolting and Anchoring Systems, Steel Service Centers	https://www.bacoent.com
1548	SKM Industries, Inc.	SKM Industries, Inc. is a small minority/woman-owned manufacturing company, established in 1980. We manufacture the finest marking tools, office supplies & craft supplies available. We are one of the country's premier manufacturers of quality marking products, all USA made. Our mission is to create the best marking, screen & janitorial products available. Our US-based facility can mobilize the right people, skills & technologies to provide high-performance consumer and industrial products. Our Super Met-Al brand has made us a leader in the industrial area. We are committed to excellence & creating innovative products for our customers.	Galvanizers, Other, Welding and Stud Material	http://www.skmproducts.com
1549	Team Detailing Solutions LLC	Team Detailing Solutions (TDS) specializes in Structural steel detailing, Connection design and Estimodeling over 20 years in business. We operate SDS2 & Tekla Structure, Autodesk, Descon, Mathcad (100+ Licenses) to produce 3D models and detailed fabrication & erection drawings for Industrial, Commercial and Infrastructure projects in AISC/CISC standards With a team of 180+ detailers, checkers & project managers. They are capable of completing projects small/ large and complex structures. We provide connection/delegated misc design calculations with Certified American P.E. stamp.	Detailers, Engineering Consulting, Joists and Deck, Stairs/Railings and Miscellaneous Steel	http://teamdetailing.com/

1550	Pan Gulf Technologies	Pan Gulf Technologies INC is an ISO 9001 & 27001:2022 certified Multi-Disciplinary Engineering Solutions company with specialization in Structural & Miscellaneous Steel Detailing as well as Connection Design. As one of the top Steel Detailing Companies globally, we use Tekla and SDS/2 (350+ licenses) to produce 3D models and detailed fabrication & erection drawings for Industrial, Commercial and Infrastructure projects worldwide. Our strengths: 5000+ Projects Delivered, size ranging from 50-50,000 Tons, 950+ Expert Engineers, 25+ Years of Proven Track Record, 9 Delivery Centers across the Globe with local presence in Texas, USA.	Detailers, Engineering Consulting, Software	https://www.pangulftech.com
1551	Steel Tube Institute	The Steel Tube Institute is the leading technical resource in North America for all steel tube / HSS products. STI's programs include continuing education, technical resources, technical assistance, and safety programs as we promote best practices in engineering design, environmental concerns, manufacturing techniques, industry safety, and the overall steel industry. Our main goal is to increase utilization of HSS and other tubular products in construction and other industries, and to reveal the wealth of possibilities afforded by designing with HSS.	Engineering Consulting, HSS Manufacturers, Structural Systems and Components	http://www.steeltubeinstitute.org
1600	Intermark Steel	Intermark Steel, an AISC-certified steel Fabricator, partners with general contractors to deliver high-quality structural steel, stairs, and miscellaneous metals for commercial projects. Our expertise lies in labor-intensive scopes that demand exceptional craftsmanship and precision. We prioritize clear communication and proactive onsite management to ensure projects are executed to the highest standards, consistently exceeding client expectations and fostering long-lasting relationships.	Stairs/Railings and Miscellaneous Steel	https://intermarksteel.com/projects/
1601	3D Engineering Global LLC	3DE Global provides world class Structural design, Steel detailing, Rebar detailing, Precast Concrete detailing, 3D Laser scan point cloud data processing and BIM services. We use an array of licensed software and the latest cutting edge technology to provide turnkey solutions for our clients. We are a one stop subcontractor for all of your engineering needs. Our team has extensive knowledge in residential, commercial and industrial projects. With branch offices around the globe and an experienced team of 126+ resources at our disposal, no job is to big or complicated for us to execute.	Detailers, Engineering Consulting	https://www.3deglobal.com
1605	New Millennium	Control project costs, enhance project performance and ensure project success with New Millennium. From steel joists and joist girders to steel roof and floor deck, we engineer and manufacture cost-efficient, high-performance building solutions for a range of commercial applications. Our specialists assist you in specifying and engineering the steel joists and deck best suited for your project, whether it’s in the data center, warehouse, industrial, education, commercial, multi-family, multi-story office, or large-venue market. With manufacturing facilities across North America, we’re built for collaborative, expedited project delivery.	Detailers, Engineering Consulting, Joists and Deck, Structural Systems and Components	http://www.newmill.com

1610	Alro Steel	Alro Steel was founded in 1948 by brothers Al and Robert Glick in Jackson, Michigan. The company is a distributor of metals and performance plastics. Alro is focused on offering cut-to-size metals and plastics with next day delivery to over 50,000 customers in North America. Alro operates over 80 locations in 16 states and provides a broad inventory of products under the following companies: Alro Steel, Alro Metals, Alro Metals Outlet, and Alro Plastics. Alro Steel maintains one of the industry's broadest and deepest inventories of metals, available in a full spectrum of grades and shapes. More at alro.com	Materials/Engineering/Testing and Inspection, Other, Steel Service Centers	https://www.alro.com
1613	ArcelorMittal International	ArcelorMittal is the leading supplier of quality steel products in all major steel markets, including construction. Signature products, like our HISTAR® (ASTM A913) steel, have been integral to numerous iconic structures, including One World Trade Center, 150 North Riverside, Mercedes-Benz Stadium, and SoFi Stadium. Through our world-class R&D team and outstanding distribution network, we offer innovative, competitive, and sustainable solutions that have led to several industry firsts, such as the 80-ksi rolled-steel shapes supplied in Chicago's Union Station Tower.	Mills	https://ami.arcelormittal.com/structural-shapes
1614	Automation International, Inc.	Automation International, Inc., based in Danville, Illinois, is a leading supplier of automated welding products with a history spanning over 100 years through mergers and acquisitions. We specialize in designing and manufacturing custom automated welding and forming systems, including resistance welding, robotic welding, and flash butt welding equipment. They serve a variety of industries and offer a wide range of services, including rebuilds, retrofits, remanufacturing of existing equipment, and a comprehensive in-house replacement parts department.	Materials/Engineering/Testing and Inspection, Stationary Fabrication Equipment, Structural Systems and Components, Welding and Stud Material	https://www.automation-intl.com
1616	Virtek Vision	Manufacturer of laser projection and quality inspection systems. Virtek Vision provides laser templating solutions for steel assembly. Locate objects in 3D space and quickly lock onto CAD-specified assembly positions without the need for costly tooling or optical targets: - Eliminate Manual Measuring, Marking and Fitting - Reduce Templates & Storage - Reduce Human Error & Implement Rapid Design Changes Visit us to see how laser projection has increased efficiencies in the layout and assembly of steel products including handrails, trusses and stair stringers.	Hand Tools/Portable Equipment and Accessories, Other, Software, Stairs/Railings and Miscellaneous Steel	https://www.virtekvision.com
1617	J. B. Long, Inc.	Cheap Detailing Ain't Cheap! Save money on detailing only to spend much more on fabrication and erection. J.B. Long, Inc. has supplied quality structural steel and miscellaneous iron detailing to the fabrication industry since 1985.	Detailers	http://www.jblong.com
1621	LTC Virtual Design and Construction	LTC is a leading virtual design & construction (VDC) firm, providing world class LOD400 modeling through project turnover services to architects, engineers, contractors, and fabrication shops across North America. From its founding as a steel detailing company, to its evolution as a BIM solutions provider, to its most recent expansion into VDC, LTC has always put clients first. With continuous investment into software customization and development, LTC’s clients	Detailers	http://www.LTCvdc.com

		receive service and products that are specific to their individual needs, and efficiently produced in a timely manner.		
1621	LTC Software Solutions	LTC Software Solutions is both a custom software developer and a registered Tekla Software Development Expert. We help companies with custom reporting, productivity tools, app integrations, custom app builds, dashboards, portals, and business intelligence. Specific to the steel construction industry, we are experts in Tekla PowerFab / EPM and Tekla Structures. From simple custom reporting out of PowerFab, to integrations with pricing / estimate tools, to complex custom components tapping the API, LTC Software Solutions can improve your firm's productivity and profitability.	Software	https://ltcsoftwaresolutions.com/
1631	DAVI, Inc.	More than ever, applied technology is being called upon to solve manufacturing's quest for global competitiveness. The challenge is to locate the best technology and to gather them in one place for consultation. DAVI, unique in plate roll and angle roll industry, makes this available at our own U.S. Customer Support Center, located in Dallas, TX.	Bender/Roller, Stationary Fabrication Equipment	http://www.davi.com
1635	ADAMAR Industries, LLC		Hand Tools/Portable Equipment and Accessories, Safety Equipment	http://www.adamarindustries.com
1641	Hercules Bolt Company	Hercules Bolt & MFG, is a Veteran-Owned, certified "VOSB" company that is an industry leader in the manufacturing of structural anchor rods (bolts), sag rods, square plate washers, all-thread rod, and embeds; which are all proudly made with domestic material of all grades, alloys, and sizes (bent or straight). Our strong distribution stock of structural bolts makes Hercules Bolt a one source stop for any job that needs on time delivery with quality products. No job is too big or too small for Hercules Bolt & MFG.	Bolting and Anchoring Systems, Other, Structural Systems and Components, Welding and Stud Material	http://www.herculesbolt.com
1649	Vegazva Technologies	Vegazva (ISO 9001:2015) is an IL-based engineering Design & Detailing company and member of NISD and AISC. With PE stamping capabilities in all states, we provide services for Estimation, Main and Misc. steel, Commercial and Industrial projects across the country through our Steel Detailing Division. Our Plant Design Division caters to Mineral, Chemical, Water and Wastewater, Oil & Gas, Petrochemical, and Pharma industry. With over 250 resources, 4.5 MN hrs of completed detailing work, over 1200 medium to large projects delivered successfully, Vegazva is the right detailer for you.	Career Services, Detailers, Engineering Consulting, Stairs/Railings and Miscellaneous Steel	http://www.vegazva.com
1650	Russel Metals	Russel Metals is a leading North American metals distributor supplying carbon steel, stainless steel, aluminum, and specialty metals. With a broad network of service centers across the U.S. and Canada, we deliver reliable material, value-added processing, and responsive service that help keep projects on schedule. Backed by deep industry expertise and advanced capabilities, we partner with customers across construction, manufacturing, energy, and industrial markets to solve challenges and keep work moving.	Steel Service Centers	https://www.russelmetals.com/en/

1653	Magnum Consulting	Magnum Consulting is a specialized engineering and detailing firm providing structural steel and industrial design solutions to fabricators, contractors, and project teams across North America. Our services include structural steel engineering support, connection design, steel detailing, checking, fabrication-ready modeling, and mechanical design for manufacturing and material handling systems. We support projects ranging from industrial and commercial buildings to mezzanines, platforms, and complex retrofits. Using Tekla Structures and Autodesk Inventor, we deliver accurate, coordinated, and constructible models and drawings.	Construction and Project Management, Detailers, Engineering Consulting, Stairs/Railings and Miscellaneous Steel	https://www.4magnum.com/
1657	Cano Steel	We are a company with more than 36 years of experience in the fabrication and erection of steel structures. We produce 100% certified anchors, columns, beams, joists, girders, metal decks, and miscellaneous items. #AWS #SJI #SDI #AISC #GrupoCano	Construction and Project Management, Joists and Deck, Stairs/Railings and Miscellaneous Steel, Structural Systems and Components	https://www.canosteel.com/
1700	Wrought Washer	Wrought Washer Mfg., Inc. is the world's largest washer manufacturer and the dominant supplier of structural washers in the USA. Wrought Washer acquired TurnaSure with the world's most comprehensive line of Direct Tension Indicating Washers (DTIs) for bolts, studs and anchors. This includes the award-winning ViewTite visual indicating DTI. Its two-step compression process sees extremely reliable appearance of the colored elastomer when the bolt has reached the correct tension. They are more durable, and predictable, and no need for washers underneath for expanded holes. All Wrought Washer's products are made in the USA with union labor.	Bolting and Anchoring Systems, Bridge Components and Systems, Materials/Engineering/Testing and Inspection, Structural Systems and Components	https://www.wroughtwasher.com/
1704	Cleveland Punch & Die Co.	Cleveland Punch & Die Company is the World Leader in manufacturing and stocking Punches, Dies and Shear Blades in the steel industry. All of our products are proudly manufactured in the USA. Original Equipment Manufacturers continue to trust and recommend our products to meet and surpass our customers expectations for all steel applications. Our dealers and customers continue to trust and rely on the most experienced and friendly engineering and customer service support team in the industry. We are proud of our 146 Years of Quality, Experience and Tradition. Customer Service Hours: 7am-6pm EDT sales@clevelandpunch	Hand Tools/Portable Equipment and Accessories, Joists and Deck, Other, Stationary Fabrication Equipment	http://www.clevelandpunch.com
1705	STRUMIS LLC	STRUMIS is the world’s leading developer of steel fabrication management software, trusted by over 45,000 users in more than 70 countries worldwide. We deliver a comprehensive end-to-end solution for steel fabricators, covering estimating, fabrication information, production management, and project collaboration. STRUMIS integrates seamlessly with third-party systems across the structural steel supply chain, helping fabricators connect data, people, and processes to improve visibility, streamline operations, and deliver projects more efficiently from estimate through fabrication.	Bar Coding Systems and Equipment, Marking and Traceability, Other, Software	https://www.strumis.com

1711	Controlled Automation, Inc.	Controlled Automation is a customer-driven company specializing in the design and manufacture of superior fabricating equipment. Our mission, as a team, is to strengthen and grow through the success of our customers while offering them constant respect, gratitude, and a quality product. Along with new machinery, we offer material handling systems to compliment each of our machines. All machines, software, and controls are designed, manufactured, and supported entirely in the United States.	Bridge Components and Systems, Software, Stationary Fabrication Equipment, Structural Systems and Components	http://www.controlledautomation.com
1712	V&S Galvanizing	V&S Galvanizing is a leader in the hot-dip galvanizing industry, with eight locations on the East Coast and Midwest. Specializing in corrosion protection of steel with zinc by hot-dip galvanizing. We offer the DUROZINQ system of galvanizing, packaging, tagging and guaranteed service. We also offer our COLORZINQ system (paint over galvanizing) that adds brilliant color to a base of corrosion protection. V&S offers trucking and many other value added services. V&S Galvanizing is part of Voigt & Schweitzer LLC, a holding of Hill & Smith Holdings, PLC.	Galvanizers	http://www.hotdipgalvanizing.com
1716	American Punch Company	American Punch Company is a leading manufacturer of high-quality punches, dies, and shear blades for metalworking and structural steel fabrication. We also manufacture precision tooling and custom die components for the stamping, roll forming, and metal forming industries. As an ISO-certified company, we demonstrate a strong commitment to quality, consistency, and customer satisfaction. With superior tooling and exceptional service, American Punch is the trusted choice for all your tooling needs.	Hand Tools/Portable Equipment and Accessories, Other	https://americanpunchco.com
1723	FICEP Corporation	FICEP Corporation is currently the largest manufacturer of structural steel and plate fabrication systems and software. FICEP offers over 150 different CNC systems to achieve the optimum solution to any specific fabricators application. In addition to the different CNC work centers, FICEP totally integrates custom designed material handling systems for Intelligent Steel Fabrication without the requirement for multiple operator involvement.	Bridge Components and Systems, Software, Stationary Fabrication Equipment, Structural Systems and Components	http://www.ficepcorp.com
1723	Steel Projects Corp		Software	http://www.steelprojects.com
1730	InfoSight Corporation	Infosight is a leader in identification technology specializing in creating innovative identification solutions for harsh environments, improving safety outcomes, and enabling traceability. Our equipment comes with dedicated 360° support and unparalleled durability. InfoSight offers tags specifically designed for fabricators and galvanizers that survive hot dip galvanizing, shot blasting, painting, and powder coating, leaving your asset with a scannable barcode or readable serial number. Our tags can be customized with a variety of alphanumeric characters, graphics, logos and barcodes printed with our LabeLase® Printers	Bar Coding Systems and Equipment, Galvanizers, Marking and Traceability, Software	http://www.infosight.com

1741	Steel Plate	Steel Plate Georgia currently is equipped with (10) oxy-fuel machines, (2) plasma machines, (1) beveling table, (2) Quickmill Intimidators, (2) Quickmill Annihilators, (7) overhead cranes with up to 40 ton capacity, and railcar access. Our oxy-fuel machines offer table space ranging from 10’ to 20’ wide and up to 60’ long, while our plasma machine offers a 24’ by 83’ table, making no job too big to handle!	Mills, Other, Steel Service Centers	http://www.steelplate.us
1748	LS Industries	LS Industries engineers, designs and manufactures surface preparation equipment, including shot blasters, washers and vibratory tubs. Our ability to engineer and manufacture custom solutions allows us to provide the full line of finishing equipment. We are a fully integrated manufacture of airless shot blast cabinets using conveyor and monorail systems. LS Industries has solutions for cleaning rebar, pipe and tubing and structural steel. Solutions can range from fully automated to manual, economical solutions all designed to improve quality and reduce labor.	Bridge Components and Systems, Hand Tools/Portable Equipment and Accessories, Stationary Fabrication Equipment, Structural Systems and Components	http://www.lsindustries.com
1752	Cerbide		Coatings and Fire Protection, Other	https://www.cerbide.com/
1757	Miller Electric Mfg LLC	Miller® is about building things that matter. We lead the welding industry in building advanced, solution-focused products and meeting crucial needs for welding safety and health. We’re about the partnership and the work. Our products are designed with our users for manufacturing, fabrication, construction, aviation, motorsports, education, agriculture and marine applications. Miller Electric Mfg. LLC, is headquartered in Appleton, Wisconsin, and wholly owned by Illinois Tool Works (NYSE: ITW). The company maintains its industry leadership by setting the standard for reliability, quality and responsiveness.	Welding and Stud Material	http://www.millerwelds.com
1761	CN-Seamless	CN-Seamless builds user-first, portable robotic systems for the welding and fabrication industry. Our fully integrated machines work out of the box and are built for the people actually using them. Our approach to automation prioritizes tools welders and fabricators want, built around real-world demands in the shop and on the field. Our flagship product, the Mach 1, is a portable and modular robotic arm that allows customers to cut metal anywhere, in any position. We’re continuing to expand its capabilities beyond cutting, as well as developing new products that support our customers across more applications.	Hand Tools/Portable Equipment and Accessories	https://cn-seamless.com/
1805	Metals USA Plates and Shapes	Structural fabricators across North America trust and rely on Metals USA for their structural steel requirements. Metals USA is the industry leading source for extensive inventory, and sophisticated processing services including plate burning/drilling, tee splitting, cambering and press brake forming. Learn more about our wide range of product offerings to find out how we can help you achieve greater bottom line results. Steel, Processing, Service and Commitment. Metals USA - Your partner for all your steel needs.	Bender/Roller, Bridge Components and Systems, Steel Service Centers, Structural Systems and Components	http://www.metalsusa.com

1862	JLH Saws International	One of the world's largest metal sawing machines manufactures JLH SAWS INT'L INC is continuously working on Innovations and Technology. We offer the world's fastest, high-quality and technologically advance cutting solutions to customers across the world since 1983. Our team works very closely with our customers to understand their requirements. This allows us to offer them the highest performance solutions ensuring low cost per components and optimized productivity. Our manufacturing facility is modern and world class. JLH currently exports to more than 30 countries with ongoing efforts to expand our footprint across the world.	HSS Manufacturers	https://jlhsaws.com
1900	Mac-Tech	Our philosophy has remained consistent over the last 40 years: We maintain a relentless obsession to serve our customers. Mac-Tech was founded in 1984 to service and support metal fabrication equipment. We've been in business for over 40 years and are well-positioned to service and support our customer base throughout North America. At Mac-Tech, we strive to develop long-term partnerships with our customers and leave a positive lasting impression every time.	Bender/Roller, Structural Systems and Components, Welding and Stud Material	http://www.mac-tech.com
1901	Innovative Transport Solutions (ITS)	Manufacturer & Distributor of the Mobile Transport Tray (MTT) for Loading & Unloading Long, Heavy Steel Safely & Efficiently INTO Enclosed Dry Van Trailers & Intermodal Containers. Asset Based Carrier in Chicago, Los Angeles & Miami with Warehousing & Heavy Lift Capability. Innovative Thinking..Bottom Line Results!	Hand Tools/Portable Equipment and Accessories, Safety Equipment, Structural Systems and Components, Transportation and Logisitcs	https://innovativetransportsolutions.com/
1902	Seismic Bracing Company	We are makers of Buckling Restrained Brace (BRBs). The state of the art braces for bracing buildings and other structures during earthquakes. As the name implies, BRBs do not buckle. They smash and stretch axially absorbing seismic energy. We have patented a simple, easy and repeatable methods to manufacture BRBs, which brings better value to projects. Our methods have been fully tested and exceed governing building code requirements. All our projects to date have been a great success for our clients and us.	Structural Systems and Components	https://www.thesbcllc.com/
1905	JH Botts LLC	As specialists in manufacturing anchor bolts from raw material emphasizing ASTM F1554 and ASTM A449 material, we stock many 1/2″ to 3 1/2″ diameter round bars in 20′-0 to 40′-0 lengths. Additionally, we can manufacture using many different grades of material including ASTM A615 rebar, Stainless Steel rods and other assorted carbon steel grades. Our ability to produce within the tolerances prescribed by the American National Standards Institute (A.N.S.I.) make us a valuable asset to our customers.	Bolting and Anchoring Systems	http://www.jhbotts.com
1905	Haydon Bolts, Inc.	Haydon Bolts manufactures headed bolts, threaded rods, anchor bolts, u-bolts & swedge bolts, in plain and galvanized finish, with full mill cert traceablity. Haydon also carries the largest inventory of A325 & A490 Heavy Hex Head, Tension Control (TC) bolts, weld studs and wrenches, on the east coast.	Bridge Components and Systems, Construction and Project Management, Structural Systems and Components, Welding and Stud Material	http://www.haydonbolts.com

1905	St. Louis Screw & Bolt	Selling direct to structural steel fabricators, St. Louis Screw & Bolt is one of the oldest structural bolt manufacturers in the USA. Specializing in ASTM F3125 heavy hex & tension control structural bolts in grades A325/F1852/120ksi & A490/F2280/150ksi, types I and III, plain, mechanically galvanized, hot dip galvanized, F1136 & F2833 coatings. St. Louis Screw & Bolt also has a very large inventory of other construction fasteners including anchor bolts, weld studs, & concrete anchors just to name a few.	Bolting and Anchoring Systems	http://slbolt.com
1913	Lincoln Electric	Lincoln Electric is the world leader in arc welding, robotic welding systems, plasma and oxyfuel cutting equipment and brazing and soldering alloys. Headquartered in Cleveland, Ohio, Lincoln has a worldwide network of manufacturing, distribution, sales and technical support covering more than 160 countries. For more information about Lincoln Electric and its products and services, visit the Company's website at http://www.lincolnelectric.com.	Materials/Engineering/Testing and Inspection, Stationary Fabrication Equipment, Structural Systems and Components, Welding and Stud Material	https://www.lincolnelectric.com/en/
1931	GEKA USA	GEKA — Steel processing solutions since 1919 GEKA designs and manufactures advanced machinery for punching, shearing, drilling, and laser cutting of steel profiles. With over 100 years of expertise, we provide CNC solutions for angles, flat bars, beams, tubes, and plates, serving industries such as construction, energy, and metal fabrication. Our sister company GEKA USA supports customers across North America with local service and expertise. At GEKA, we combine tradition and innovation to deliver reliable and efficient equipment that helps our customers boost productivity, quality, and competitiveness.	Bridge Components and Systems, Stationary Fabrication Equipment, Steel Service Centers, Structural Systems and Components	https://www.geka-cnc.com/
1941	Trilogy Machinery, Inc.	Exclusive Distributor for Sunrise Ironworkers, Punching Machines, Horizontal Benders, and Processing Systems for Channel, Angle, and Flat bar. Trilogy is also the North American Distributor for SweBend Plate and Angle Bending Rolls, including models with advanced CNC controls, as well as Lemas Plate Rolls, BSP Tube Punching Machines, and more! Trilogy stocks more than 75 machines in Maryland, as well as a massive OEM parts inventory, multiple technicians, and service personnel.	Bender/Roller, Software, Stationary Fabrication Equipment, Structural Systems and Components	https://www.TrilogyMachinery.com
1949	Innovation Tech	INNOVATION TECH LLC with their partners INROPA and CALDAN CONVEYOR has developed ROBOTIC STEEL PAINTER system that fully automatically generates robotic path and paints structural steel beams, rafters, columns etc. The technology is proven with multiple REFERENCE SYSTEMS running. We look forward to meeting you in our booth 1949. INNOVATION TECH LLC engineers and supplies turnkey paint systems. INROPA A/S is a leading-edge technology company who has developed simulation software to automatically program paint robots. CALDAN CONVEYOR is a leading supplier of conveyor systems load capacity with up to 40000 lbs.	Coatings and Fire Protection, Cranes and Lifts, Stationary Fabrication Equipment, Transportation and Logisitcs	https://innovationtechllc.com/

1951	BesCutter	Bescutter LLC is a technology-focused company specializing in advanced industrial laser solutions for metal fabrication and manufacturing industries. The company is dedicated to providing high-quality laser cutting, laser welding, and laser cleaning equipment designed to improve productivity, precision, and efficiency in modern industrial operations. By combining innovative technology with practical manufacturing experience, Bescutter helps businesses optimize their production processes and adopt more advanced fabrication methods.	Stationary Fabrication Equipment, Steel Service Centers, Structural Systems and Components, Welding and Stud Material	https://www.bescutter.com/
1957	Ercolina - CML USA, Inc.	CML USA, Inc. is the North American supplier of Ercolina tube, pipe and profile bending and metalworking machinery. We offer our customers the highest quality cost-effective tube bending machines and metalworking equipment to create consistent quality bends. CML USA, Inc. now includes Pedrazzoli CNC tube bending, end forming machines, circular saws and bandsaws into our comprehensive range of bending solutions. We provide service parts for all Ercolina/Pedrazzoli machine equipment. Our trained sales staff is backed by fifty years of experience. Contact us today for high-quality tube bending machinery and metalworking equipment for sale!	Bender/Roller, Stationary Fabrication Equipment	https://ercolina-usa.com/
1960	Arclight Dynamics LLC	From first cuts to full production, Arclight Dynamics CNC plasma tables are built to perform reliably shift after shift. Manufacturers, fabricators, job shops, artists, and schools across the country trust Arclight Dynamics to cut faster, produce better parts, and grow their business — from entry-level air plasma all the way to X-Definition HD cutting with the Hypertherm XPR 300. Every CNC plasma table ships fully tested and 98% assembled, so you spend less time on setup and more time cutting.	Stationary Fabrication Equipment	https://arclightcnc.com/
1961	Aligned Vision	Aligned Vision digitizes structural steel fabrication with advanced software and AI-driven inspection. LaserPath, our CAD-to-laser software platform, converts 3D models into precise laser projection that guides layout, fit-up, and welding directly on beams, plates, and assemblies—eliminating manual measuring, templates, and rework. LaserVision-AI provides real-time inspection and validation, verifying weld presence, alignment, and quality. The result is faster setup, improved accuracy, and consistent, traceable production across fabrication operations.	Hand Tools/Portable Equipment and Accessories, Materials/Engineering/Testing and Inspection, Other, Software	https://www.aligned-vision.com
1962	LineSight	LineSight builds production planning software purpose-built for metal service centers. We do one thing: help slitting operations reduce scrap, cut planning time, and increase throughput, without changing equipment or hiring more people. If you process flat-rolled coil and plan manually, we built this for you.	Software, Steel Service Centers	https://www.linesight-ai.com
2000	Cleveland Steel Tool	Cleveland Steel Tool is the world leader in the manufacturing of Punches, Dies, shear blades and Specialty tooling. Our Punches, Dies, Shear Blades and Specialty tools are supplied daily to the structural steel, railroad (track and cars), farm equipment, truck frame, shipbuilding and grader blade industries, as well as serving all manner of fabricators and ornamental iron shops. In addition to the above, we also supply	Hand Tools/Portable Equipment and Accessories, HSS Manufacturers, Stationary Fabrication Equipment	www.clevelandsteeltool.com

		annular cutters, magnetic drills, portable punching units, steel saws and steel saw blades to the metal fabrication industry.		
2001	Qubatic Steel Detailing LLC	Qubatic is a trusted and reliable partner for Steel Detailing, RC Detailing, Precast Detailing, Estimation and BIM Modeling services. We recognize the importance of delivering great value and experience to our clients in every project. To meet these performance standards, we have worked hard over these 13 years to develop a technical expert team of Detailers & Checkers along with the cutting edge technology required for modern day needs with all required infrastructure in a spacious office space. Qubatic is an ISO 9001:2015 certified by TUV and an Associate member of AISC and NISD.	Detailers, Engineering Consulting, Stairs/Railings and Miscellaneous Steel	http://www.qubatic.com
2011	Peddinghaus Corporation	Peddinghaus Corporation produces the toughest steel fabrication technology in the world. Every hand-assembled machine is the gold standard for what structural steel fabrication equipment should be. We understand that our machines are more than just a tool for our customers, it's the lifeblood of their company. We dedicate ourselves to working closely with fabricators throughout every step of their Peddinghaus experience - because when they succeed, we succeed together.	Stationary Fabrication Equipment, Structural Systems and Components	https://www.peddinghaus.com/
2033	KALTENBACH	With over 135 years of experience and 120,000 machines delivered worldwide, Kaltenbach is one of the leading suppliers of reliable, high-quality steel processing and preservation systems. The portfolio includes machines for sawing, drilling, thermal cutting, blasting and painting steel. With 300 employees at two production sites, nine subsidiaries and representatives worldwide, Kaltenbach offers its customers excellent local service. Kaltenbach belongs to Codymag, a strategic investor from Germany, which represents an established, large industrial group in mechanical and plant engineering.	Stairs/Railings and Miscellaneous Steel, Stationary Fabrication Equipment, Steel Service Centers, Structural Systems and Components	https://www.kaltenbach.com/en/
2057	Jinan Jinqiang Laser Equipment Co., Ltd	JQ Laser is an R&D and manufacturing enterprise specializing in Laser Industrial Intelligent Equipment. We provide standardized laser tube cutting machines and personalized flexible tube processing systems for global users.	Construction and Project Management, Stationary Fabrication Equipment, Structural Systems and Components, Welding and Stud Material	https://www.jqlaser.com
2060	Integrated Communications Inc. (ICI)		Other	https://www.iciwireless.com/
2140	AKYAPAK USA	We are a machinery company that connects technology and engineering through comprehensive machinery and software solutions for metal forming and fabrication. Our innovative products and services, backed by our global dealer network, provide exceptional value that helps our customers succeed and empowers industries to contribute to a better and sustainable future. Akyapak USA is the North American subsidiary of Akyapak based in Bursa, Türkiye. Conveniently located in Tampa, Florida, our warehouse is fully stocked with advanced machineryready for immediate delivery.	Bender/Roller, Stationary Fabrication Equipment, Structural Systems and Components, Welding and Stud Material	http://www.akyapak.com

2221	Combilift	As a specialist forklift & straddle carrier manufacturer, Combilift produces a wide range of customized handling solutions, all of which are designed for the safe, space saving and very productive handling of the long and bulky loads like those handled in the steel industry. The 4-directional Combilifts work as counterbalance, sideloader, and narrow-aisle forklifts, with the Combi-SC (Straddle Carrier) being the cost effective solution for the handling of containers and oversized loads. Capacities across the Combilift range are from 3,200 lbs. to 180,000 lbs.	Cranes and Lifts	http://www.combilift.com
2231	Bend-Tech	Bend-Tech, LLC. is the industry leader in production-ready technology for tube and pipe processing. Based out of Osceola, Wisconsin, Bend-Tech specializes in CNC tube and pipe plasma cutters, as well as tube and pipe CAD software. Focused on industries from small structural steel and miscellaneous metals to racing and offroad, Bend-Tech's products are used by a large array of fabricators and manufacturers alike.	Bender/Roller, Software, Stationary Fabrication Equipment	http://www.bend-tech.com
2232	SPK Solutions USA	We offer a patented DRY process that deburrs, de-greases, removes slag, and rounds edges of fabricated and machined parts. These French made machines are stocked and supported from a factory Testing Center in Houston, TX, as well as supported locally by a national stocking and factory trained distribution network.	Other, Safety Equipment, Stationary Fabrication Equipment	https://www.spk-solutions.fr/
2249	GATOR	Gator Fabrication Technology is a U.S.-based builder of heavy-duty metal fabrication machinery serving the structural steel and industrial fabrication markets. Our product line includes plate rolls, angle rolls, beam processing systems, shot blasters, press brakes, shears, and band saws. Built with premium components and engineered for high-yield applications, Gator machines deliver precision, durability, and dependable performance across North America.	Bender/Roller, Stationary Fabrication Equipment, Structural Systems and Components	https://www.gatorfabtech.com
2311	Peddinghaus Corporation	Peddinghaus Corporation produces the toughest steel fabrication technology in the world. Every hand-assembled machine is the gold standard for what structural steel fabrication equipment should be. We understand that our machines are more than just a tool for our customers, it's the lifeblood of their company. We dedicate ourselves to working closely with fabricators throughout every step of their Peddinghaus experience - because when they succeed, we succeed together.	Stationary Fabrication Equipment, Structural Systems and Components	https://www.peddinghaus.com/
2333	Mid Atlantic Global	At Mid Atlantic Global, we live and breathe fabrication technology. That's just one of the reasons businesses who process metal to make parts and products turn to us when they need new equipment. Our team has decades of experience working with small job shops and international manufacturers alike, and can specify, design, procure and install the perfect machine for just about any application.	Structural Systems and Components	http://www.midatlanticglobal.com

2341	Voortman Steel Machinery	Voortman Steel Machinery is a global leader in highly automated steel processing systems, from compact lines to large setups with multisystem integration. With over 50 years of experience, Voortman delivers tailored machinery and software to meet evolving industry needs. Its LOGICSTEEL suite boosts efficiency through smart material purchasing, multi-objective nesting, and production planning. Voortman partners with you to exceed your processing goals through innovation and collaboration.	Marking and Traceability, Software, Stationary Fabrication Equipment, Welding and Stud Material	https://www.voortman.net
2357	X SERIES USA	X-Series USA is a machine tool company dedicated to revolutionizing the metal manufacturing industry by providing affordable, high-performance equipment like laser cutters, CNC press brakes, and precision profiling processors for fabricators, OEMs, and job shops. Their mission emphasizes advanced technology backed by exceptional local service through XOVR Parts & Service, ensuring quick ROI, installation, training, and reliable support that contrasts with larger competitors.	Other, Stairs/Railings and Miscellaneous Steel, Stationary Fabrication Equipment, Structural Systems and Components	http://www.xseriesusa.com
2407	Vectis Automation	Vectis Automation has been the pioneering force in versatile, cost-effective collaborative robotic (cobot) welding and plasma cutting since 2019. As the demand for cobots has grown, Vectis has remained at the forefront of both innovation & robustness, expanding product capabilities to meet the diverse needs of fabricators while maintaining the “it just works all day every day” reputation. With over 750 deployments across North America spanning customers of all types and sizes, Vectis systems provide the leverage to optimize production, reduce costs, and achieve superior quality. Come get a free application consultation with our experts!	Hand Tools/Portable Equipment and Accessories, Stationary Fabrication Equipment, Structural Systems and Components, Welding and Stud Material	http://www.VectisAutomation.com
2432	Shop Data Systems, Inc.	Shop Data Systems (SDS) has been servicing the steel fabrication industry for more than 30 years with CAD/CAM software solutions. The system will import flat plate components directly from your structural design software. System features: imports file-embedded quantity and material; import multiple files in seconds; import DSTV or DXF files; machine tool paths are applied automatically; tools with or without piece mark; automatic shape nesting; chain cutting; common line cutting; automatic plate trim; personalized training and support; and remnant inventory tracking.	Software	http://www.shopdata.com
2505	Engineered Rigging	Engineered Rigging provides pioneering heavy rigging solutions for a variety of industries around the globe. Leveraging decades of hands-on experience and technical expertise, we help clients overcome the world’s most intricate lifting challenges and complex machinery moves. Engineered Rigging empowers our customers with comprehensive equipment rental, sales, and preventive maintenance, engineering innovation, custom solutions and unwavering technical support.	Cranes and Lifts, Engineering Consulting, Materials/Engineering/Testing and Inspection	https://engineeredrigginggroup.com/
2507	John A. Papalas & Co.	At John A. Papalas Company, we specialize in professional industrial and commercial painting services.	Coatings and Fire Protection, Erectors, Stairs/Railings and Miscellaneous Steel, Structural Systems and Components	https://www.johnapapalasco.com

2513	HGG Profiling Equipment BV	Since 1984, we have specialized in 3D profiling and are globally recognized as a market leader in plasma and oxyfuel CNC cutting machines. We help you gain a competitive edge in your market and are trusted by the world's leading companies in the steel construction, shipbuilding, offshore, and pipe processing industries. With our seamless, in-house-built software integration, you can send your CAD designs directly to our profiling machines and turn your fabrication process into a streamlined, automated manufacturing environment.	Stationary Fabrication Equipment	https://hgg-group.com/
2523	Holemaker Technology HMT	Holemaker Technology is the specialist manufacturer of the Patented VersaDrive metal drilling accessory system. Combining our pioneering, impact rated and now patented VersaDrive® system with the latest generation of high-torque cordless power tools has created a revolutionary level of drilling speed & performance, never before possible with portable tools. With a wide customer base across the USA in industries spanning Construction, defense, manufacturing, MRO, transportation & Infrastructure and energy - HMT is sure to have timesaving solutions available for your application.	Hand Tools/Portable Equipment and Accessories	https://www.holemaker-technology.com
2525	Soitaab USA Inc.	Since 1938, Soitaab has been a world leader in the manufacture of CNC Plasma , flame , Laser and Water Jet cutting machines. Soitaab's equipment offerings range from simple plug-and-play machines to highly engineered all-in-one heavy fabrication lines. Our machines can be equipped with several accessories such as drilling and taping units, surface and hole milling, bevel heads for welding prep, countersinking, marking, pipe and dome cutting, sophisticated handling systems and many others.	Grating and Grating Fasteners, Marking and Traceability, Stationary Fabrication Equipment, Steel Service Centers	http://www.soitaabusa.com
2531	AKS Cutting Systems	AKS Cutting Systems is a leading manufacturer of advanced CNC cutting systems including plasma, waterjet, and oxy-fuel, for the sheet metal, plate metal, and fabrication industries. Our cutting tables feature our 5 axis robotic beveling system, the AKS robo-kut, and our tube/pipe cutting system, the AKS tube-kut. With a legacy of over 100 years in American-made craftsmanship, AKS Cutting Systems is proud to be a fourth-generation, family-owned and operated business. With thousands of machine installations worldwide, our products are proven to be reliable, accurate, and durable	Software, Stationary Fabrication Equipment, Steel Service Centers, Structural Systems and Components	https://akscutting.com
2541	Prodevco Robotic Solutions Inc.	Prodevco Robotic Solutions offers Advanced Robotic Plasma Steel Cutting sytems. There are three models the PCR42, PCR41 and PCR 31 that will process standard structural steel profiles, and round tubes from 4 to 26", cuts copes, notches, holes and weld preps, splits beams, and scribes and marks on all four faces of H-beams, channels, angles, HSS and plates using automated robotic technology. All-in-one system reduces fabrication time, manpower and materials to meet everyone's goal: lower manufacturing costs.	Software, Stationary Fabrication Equipment	http://www.prodevcoind.com

2604	C.M. Mockbee Co.	Mockbee founded the business in 1909 with a primary focus and reputation for quality threaded products and outstanding on-time service. Mockbee's manufacturing capabilities include custom threaded products such as anchor bolts, sag rods and turnbuckle assemblies. We also specialize in lifting and rigging, structural fasteners and anchors , industrial (HVLS) fans, and energy efficient lighting.	Bolting and Anchoring Systems, Other, Structural Systems and Components, Welding and Stud Material	https://mockbee.com/
2704	Fabricating & Metalworking Magazine	As a Fabricating & Metalworking subscriber, you will receive 10 issues per year. Fabricating & Metalworking covers every aspect of metal forming and fabricating, welding, metal cutting, tooling and workholding, measurement and inspection, material handling, maintenance, and environment, health, and safety. Rely on us for cutting-edge product news and competitive operating solutions to help improve processes and product quality, equipment reliability, operator safety, and business profitability. Subscribe: fabricatingandmetalworking.com/subscribe	Other	https://www.fabricatingandmetalworking.com
2706	Viking Blast Systems	Viking Blast Systems designs Structural and Plate blast machines built specifically for the demands of the steel fabrication industry. For over 40 years, we've delivered reliable, American-made equipment engineered for performance and durability. Whether you're working within tight production targets or budget constraints, our systems provide efficient, consistent cleaning of large plates and I-beams, delivering a high-quality surface ready for coating or finishing. Backed by in-house manufacturing, a large in-stock parts inventory, and world-class service and support.	Other, Stationary Fabrication Equipment, Structural Systems and Components	http://www.vikingcorporation.com
2712	Automated Layout Technology LLC	Automated Layout Technology is the maker of the Lightning Rail, the first automated marking machine created specifically for the layout of stairs and hand rails. The Lightning Rail works with DXF files to quickly and accurately print an entire stair stringer or rail in minutes saving hours of labor. The fully automated CNC machine takes your design and prints the entire work piece on a rigid steel frame table in any configuration including rails, pickets, hangers and more. Easily place channels on the table for the automatic layout of stair stringers.	Stationary Fabrication Equipment	http://www.automatedlayout.com
2724	Kinetic Cutting Systems, Inc.	Kinetic manufacturers a variety of precision CNC plasma and flame cutting machinery, as well as multi-process machines that combine machining operations such as drilling, tapping, milling and interpolation with cutting operations. One Machine-Complete Parts- Start to Finish. Kinetic offers a complete solution for the Structural Steel Industry.	Stationary Fabrication Equipment	http://www.kineticusa.com
2740	AGT Robotics	AGT Robotics is an automation and robotics expert specialized in the metal industry. They also manufacture the BeamMaster Weld, a Robotic Welding Line specially engineered to answer all the welding needs of structural steel fabricators. BeamMaster features a small footprint, complete robotic automation and integration with dedicated software. With its attractive prices, all sizes of fabrication shops can now consider solving their welding production issues with robotic welding.	Stationary Fabrication Equipment, Welding and Stud Material	http://www.agtrobotics.com

2752	EMI	Since our start in 1989 as Electro-Mechanical Integrators, we have perfected the design of plasma cutting systems for tube, channel and other miscellaneous metals. And in that time, we are proud of the way our machines have helped thousands of fabricators, OEMs and job shops grow their businesses. With easy programming, robust machine design, and multiple processes in a single setup, EMI machines help busy fabricators do more work faster and better. We are standing by to help you maximize production efficiency when processing tube, pipe, stair stringers and more!	Stairs/Railings and Miscellaneous Steel, Stationary Fabrication Equipment	http://www.emiworks.com
2817	Blast Cleaning Technologies	BCT designs and manufactures heavy-duty shot blast systems in the U.S.A. We offer replacement parts, upgrades and technical service for all makes and models of shot blast systems. Our engineered equipment designs and upgrades improve blast wheels, separators, elevators, work handling systems to boost production, enhance cycle times and increase maintenance efficiency. BCT has expanded our operations with a new world class captive foundry dedicated to supporting our customers shot blast needs.	Bridge Components and Systems, Other, Stationary Fabrication Equipment, Structural Systems and Components	https://bct-us.com
2829	Kobelco Welding of America, Inc.	KOBELCO, your best partner for structural steel fabrication, including seismic application is proud to be one of the few companies that develops all of its own original welding materials, welding robots, and welding power sources.	Structural Systems and Components	http://www.kobelcowelding.com
2841	Machitech	For over 20 years, Machitech has offered fully customizable cutting systems of the highest quality. Choosing Machitech means gaining free lifetime access to our team of experts, specialized assistance, and prompt technical support. Join us at booth #2841 to see our Beamcut Robotic Plasma Cutting System, an industry-leading robotic plasma cutting system that integrates advanced FANUC robotics & easy-to-use 3D simulation software with Hypertherm’s XPR170 plasma systems. We will also show our Diamond Cut 5-axis CNC Plasma Table, equipped with a Hypertherm XPR300 plasma system.	Software, Stationary Fabrication Equipment	https://www.machitech.com
2853	Precision Steel Systems	Precision Steel Systems offers the widest range of railing layout equipment on the market. The R4X , PLS-624, and PLS-824 all offer unmatched line quality and industry leading price points. PSS machines will show quick return on investment for any shop looking for alternatives to making up for the skilled labor shortage.	Stationary Fabrication Equipment	http://www.precisionsteelsystems.com
3011	Blastec	Founded in 1976, Blastec specializes in the design and manufacture of industrial shot blast machines. For 50 years, our company has provided surface preparation solutions for the steel finishing industry. The core of our business is the production of custom-engineered blast systems. Rather than offering standardized models, Blastec develops equipment tailored to specific production volumes, part geometries, and facility layouts. This ensures that each machine integrates seamlessly into the client's existing workflow while meeting rigorous durability standards.	Bridge Components and Systems, Coatings and Fire Protection, Stairs/Railings and Miscellaneous Steel, Structural Systems and Components	https://www.blastec.com/

3015	Kebei Laser Co., Ltd.	Kebei Laser is a high-tech company specializing in the research, development, production, and sales of advanced laser equipment. The company focuses on intelligent laser processing solutions, offering a range of efficient products including custom steel laser secondary processing lines, laser cutting machines, laser tube cutting machines, and laser deburring machines. As a leading manufacturer, Kebei Laser is committed to providing comprehensive, end-to-end intelligent laser equipment solutions.	Other, Stationary Fabrication Equipment	https://www.kebeilaser.com
3017	DUROSTAMP TOOL	PRESS BRAKE TOOL CNC PRESS BRAKE MONSTER SLAT CLEANER SHEET METAL STORAGE SYSTEM	Hand Tools/Portable Equipment and Accessories, Other	http://www.durostamp.com
3021	ErmakUSA	Ermakusa is leading sheet metal manufacturing company. Fiber Laser, Press Brake, Shear, Plasma Table, Turret Punch and 3D printer are main products.	Bender/Roller, Stationary Fabrication Equipment, Steel Service Centers, Structural Systems and Components	https://www.ermakusa.com/
3022	Pat Mooney Inc.	With over 75 years in the metal sawing industry and more than three decades of partnerships with market leading saw machine builders, Pat Mooney Saws can solve your production challenges. We offer a variety of in-stock saws to suit any application, along with the expertise to help you optimize your sawing production. Consider us a one-stop shop for saws, blades, and application support.	Other	http://www.patmooneysaws.com
3031	Daito Seiki Co., Ltd.	DAITO is focused on metal cutting, drilling and plasma cutting machines and has become the most technologically advanced machine producer in its field. Along with being the world's top manufacturer in its field, DAITO is geared toward customer satisfaction by supporting our customers with our knowledgeable and responsive sales, applications and our sales personnel.	Marking and Traceability, Other, Stairs/Railings and Miscellaneous Steel, Stationary Fabrication Equipment	http://www.daitousa.com
3041	Baumann USA	Baumann Sideloaders deliver Faster, Safer, Smarter long load handling for steel operations. Carrying loads within the truck’s footprint increases load stability while reducing wheel load and ground pressure, meaning less ruts in aisle ways and lower facility maintenance costs. Sideloaders also provide better operator visibility, greatly increasing safety, and allow for narrower aisles saving valuable yard space. With safety options like SafeLoad Assist, and rugged construction, Baumann delivers the industry a reliable and safe solution for handling beams, plate, and structural steel.	Cranes and Lifts, Other	https://www.baumannusa.com/
3053	ACME LASER	Acme Laser is a manufacturer of high-power fiber laser cutting systems for heavy metal fabrication. Our core solutions include plate lasers and large-diameter tube lasers, capable of processing tubes from 4.7″ to 25″ OD. Designed for structural steel and heavy industrial applications, our systems deliver high precision, stability, and efficiency on large, heavy materials. Acme Laser has installed numerous systems worldwide, with strong adoption in North America. We provide local sales, service, and spare parts support, with U.S.-based teams in Denver, Colorado and Georgia.	Other, Stairs/Railings and Miscellaneous Steel, Stationary Fabrication Equipment, Structural Systems and Components	https://acmelaser.com/

3127	Messer Cutting Systems	Messer Cutting Systems is a global supplier of cutting solutions for the metal-working industry. With our reliable cutting innovations & technologies, superior service, and intelligent software solutions, we are setting standards of solutions, services, and support worldwide. As the leader in the thermal cutting industry, we are working on smarter, faster, and more reliable solutions as an added value for our customers. This is what motivates our nearly 1,000 experienced employees in five main locations every day. Messer Cutting Systems is actively supporting our customers in more than 50 countries.	Marking and Traceability, Software, Stationary Fabrication Equipment, Structural Systems and Components	https://us.messer-cutting.com
3141	Tecoi USA	TECOI delivers advanced plate processing solutions for heavy steel fabrication. Our systems integrate laser, plasma, and oxy-fuel cutting with drilling, milling, and automated material handling for large, heavy plates—maximizing productivity, precision, and safety. With turnkey installations and Industry 4.0 integration, TECOI serves shipbuilding, energy, construction, and many other industries worldwide.	Other, Stationary Fabrication Equipment	https://tecoiusa.com
3152	Airgas, an Air Liquide company	Airgas®, an Air Liquide company, is a leading U.S. supplier of industrial, medical and specialty gases, as well as hardgoods and related products; one of the largest U.S. suppliers of safety products; and a leading U.S. supplier of ammonia products and process chemicals. Airgas helps its more than 1 million customers advance their business performance & reach their full potential with reliable products, services & expertise used to create, build, care, serve and sustain. With 18,000 associates, over 1,400 locations, a robust eBusiness platform, and Airgas Total Access telesales channel, Airgas is ready to help customers fill their potential.	Hand Tools/Portable Equipment and Accessories, Safety Equipment, Stationary Fabrication Equipment, Welding and Stud Material	https://www.airgas.com
3153	Hypertherm Inc.	Hypertherm represents the world’s leading plasma and waterjet technologies that enable connected factories and optimized performance. Hypertherm plasma systems are trusted and used by more businesses and people than any other brand and are considered the best plasma cutting tools available today. With the ability to cut virtually all materials, OMAX waterjets are ideal for production, tooling, short-runs and prototyping in a continuously expanding range of industries. Our customer-focused innovation is the reason why Hypertherm plasma and OMAX waterjets consistently outperform the competition in cut quality, productivity, and cost-efficiency.	Hand Tools/Portable Equipment and Accessories, Other, Software, Stationary Fabrication Equipment	https://www.hyperthermassociates.com
3329	Pioneer Machine Sales	Pioneer Machine Sales represents the global leaders in metals fabrication and machining for manufacturing processes. We distribute machinery in the Southern United States. With more than 20 years of experience in custom metal fabrication, our goal is to offer the newest innovations in machinery and manufacturing practices from around the world with the highest quality and lowest cost per part. We offer top of the line brands from world class leaders in the industry, specializing in all types of products, from small scale to large production manufacturing facilities.	Stationary Fabrication Equipment	https://pioneermachinesales.com/

3340	Ocean Machinery, Inc.	Ocean Machinery delivers versatile and affordable solutions for the small to medium fabricator. Including: * OCEAN AVENGER & AVENGER PLUS - the world's best-selling CNC beam drill lines * OCEAN CLIPPER II - the most compact CNC angle line * OCEAN LIBERATOR - the most affordable CNC beam coping machine * OCEAN BLASTER - the smallest footprint shot blasting solution * OCEAN CHALLENGER - a compact, automated welding robot. Plus, several other game changing solutions that improve the efficiency & profitability of fabricators worldwide!	Cranes and Lifts, Joists and Deck, Other, Stationary Fabrication Equipment	https://www.oceanmachinery.com
401	SteelBoost | AI Bid & Growth Systems	AI-powered digital growth platform for structural steel companies. Our team combines deep steel industry expertise with digital marketing excellence, delivering proven strategies that help fabricators, erectors, and detailers generate qualified RFQ leads, fill their pipeline, and scale with confidence. Built on seven years of construction trade marketing experience and backed by a 90-day results guarantee — we know structural steel, not just clicks.	Construction and Project Management, Engineering Consulting, Other, Software	https://steelboost.io
402	CWB Group	CWB Group is an Ontario, Canada-based, industry-supported private sector not-for-profit organization that provides comprehensive, integrated services to nearly 10,000 companies and 100,000 professionals across the welding and joining industry in nearly 50 countries worldwide. Visit us at https://www.cwbgroup.org. EWI provides industrial manufacturers with advanced engineering services in materials joining, forming, testing, and modelling to create effective solutions in product design, fabrication, and production. The organization is based in Columbus, OH, and Buffalo, NY. Visit us at https://ewi.org.	Engineering Consulting, Materials/Engineering/Testing and Inspection, Other, Welding and Stud Material	http://www.cwbgroup.org
404	Fenagh Engineering & Testing	Fenagh Engineering and Testing was formed in 2014 to provide 3rd Party Inspection and Non-Destructive Testing for structural steel fabrication and on-site inspection. We provide quality control managers, auditing, and PQR testing nationwide and around the world.	Engineering Consulting	http://www.fenaghengineering.com
405	Somerset Construction Engineering	Somerset Engineering Group is a specialist in construction engineering, providing innovative solutions for complex projects. Founded in 1981, Somerset's expertise includes erection engineering for complex bridge and building projects, design of customized falsework and shoring systems, specialized erection equipment design, and engineered lifting and jacking solutions. Drawing on the knowledge and experience from its construction division, KWH Constructors, Somerset excels at developing practical, economical designs that provide competitive advantages through innovative construction techniques.	Construction and Project Management, Cranes and Lifts, Engineering Consulting, Materials/Engineering/Testing and Inspection	https://somerseteng.com
405	KWH Constructors, Inc.	KWH Constructors is an AISC-certified international structural steel erection specialist based in the Pacific Northwest. Founded in 1989, KWH excels in erecting complex structures, including movable, long-span, and cable-supported bridges as well as distinctive buildings, seismic retrofits, and specialty structural projects. KWH integrates construction know-how with in-house engineering expertise from Somerset Engineering to develop custom erection schemes, temporary works,	Bridge Components and Systems, Construction and Project Management, Cranes and Lifts, Erectors	https://kwhconstructors.com

		and specialty equipment, expanding KWH's capabilities in heavy lifting, jacking, launching, and engineered erection.		
406	Aekam AI	Aekam AI is a document intelligence platform that automates complex workflows in manufacturing and construction.We extract, validate, and structure data from documents like MTRs, specs, drawings, and submittals—reducing manual effort, improving compliance, and accelerating decisions. Our solutions combine AI extraction, rules-based validation, and human-in-the-loop review to deliver accurate, audit-ready outputs	Software	https://aekam.ai/
410	Visions in Steel	Visions in Steel is a narrative photography exhibition that highlights the people, craft, and creativity behind structural steel fabrication. Featuring past participants from select stops across the country, along with local fabricators, it shares real projects and personal stories from the shops that help shape our communities. Through photography and firsthand perspectives, the exhibit offers a closer look at the diversity of people and paths within the steel industry—and the pride, skill, and care that go into every piece of fabricated steel. Learn more: aisc.org/visions	Other	http://aisc.org/visions
413	NAVIX Consultants	Considering a sale of your business? Planning to retire? Wondering what your business is worth? NAVIX helps fabricators and manufacturers maximize exit value and achieve successful transitions for both the owner and the company. For over 17 years, we've guided over 500 business owners, including many in steel fabrication and manufacturing, through exits representing over $3.5 billion in total value. We combine strategic exit planning with hands-on execution. Most owners only exit once. We bring experience and expertise to remove the uncertainty from the process. Stop by Booth 413 to discuss your exit timeline.	Other	https://www.navixconsultants.com/steel
415	National Ornamental & Miscellaneous Metals Association (NOMMA)	NOMMA, the National Ornamental & Miscellaneous Metals Association, is a not-for-profit membership association with the purpose to promote the common business interest of those engaged in the ornamental and miscellaneous metals industry. Our mission is to help our members succeed. We offer memberships for fabricators, industry partners and affiliates to the industry.	Other	https://www.nomma.org
417	SMG Insurance, an Alera Group Company	SMG Insurance is a full-service Commercial Insurance firm providing the highest levels of service in Commercial Insurance Placement, Claims Management, Loss Control and Account Management. We serve our clients in the areas of: - Commercial General Liability - Property Insurance - Workers Compensation Insurance - Commercial Auto Insurance - Commercial Umbrella - Bonding and Surety In addition to our commercial insurance services, we also provide our clients services in the Employee Benefits side of our market. This includes: - Group Health Insurance - Group Dental, Life, STD, LTD - Full Suite of Ancillary	Other	https://www.smginsurance.com

420	JPC TOOLSET & Highlander Service		Detailers, Software, Stairs/Railings and Miscellaneous Steel	https://www.highlanderservice.com/
421	Sea12 Technologies Inc.		Software	https://www.sea12.co
422	Bureau Veritas North America	Bureau Veritas is the largest and most qualified Transportation Infrastructure Inspection Agency in operation today and is proudly serving many state DOTs, Turnpike Authorities, prominent transportation Engineering Firms and freight and passenger railroads. We provide our clients with tailored solutions to meet their specific requirements regarding Robotics inspection, QA/QC inspection, coating inspections, Non-Destructive Testing and staff augmentation through experienced, qualified personnel and the latest technological advances.	Materials/Engineering/Testing and Inspection	http://www.bvna.com
423	Alkali Engineering	Alkali Engineering provides cutting-edge AI takeoff software (https://alkali.engineering/). Alkali is the state of the art. This is currently the only software that can find column heights. It has a capable AI that can modify annotations, find scope, and discuss the takeoff. It also enables real-time collab, Tekla integration, and more. Try it out free!	Engineering Consulting, Software	https://alkali.engineering/
424	Sublime Structures	Ready to partner with a Detailing firm that blends precision, professionalism, and purpose? Let Sublime show you what it means to build with intent. Founded in 2021, we set out to deliver world-class steel detailing solutions to fabricators across North America. Today, we proudly support projects throughout the USA, Canada, and the UK. Our story began with a pedestrian bridge project in the UK and since then, we've earned the trust of fabricators and contractors with our accuracy, speed, and unwavering commitment to quality. Whether it’s a learning stair in Virginia or a platform in Labrador, we bring deep expertise and reliable results.	Detailers, Engineering Consulting, Stairs/Railings and Miscellaneous Steel	https://sublimestructures.com/
425	SY Stairs		Stairs/Railings and Miscellaneous Steel	http://www.systairs.com
430	Rack and Reel Montana		Other	https://www.rackandreelmontana.com/
431	Forgepoint	We build AI agents that help steel fabricators and service centers quote faster, coordinate RFQs, and track bids in real time — so they win more work with less back-and-forth.	Software	https://forgepoint.ai
432	OspreyX Corp		Materials/Engineering/Testing and Inspection, Safety Equipment, Software	https://www.ospreyx.com
433	Penn Fusion Engineering, LLC	If you are reading this in 2311, Penn Fusion has probably designed several Mars colonies and the gravity train tunnels from Philadelphia to London. Its cyborg engineering staff is diligently working on the space station orbiting planet Osiris (a planet not yet discovered at the time of this writing). But, if you are reading this in 2026 and happen to be in Atlanta, stop by their booth to see how Penn Fusion Engineering can help with your next project.	Engineering Consulting, Structural Systems and Components	https://www.pennfusioneng.com/

434	Florida Precision Tool	Florida Precision Tool provides Nationwide turnkey bolting, calibration, and testing services for the structural steel industry. We specialize in on-site bolt testing, Skidmore-Wilhelm verification, torque-tension correlation, and ISO/IEC 17025-accredited calibration of torque tools and gauges. Serving steel erectors, fabricators, CEIs, and EPCs, FPT helps projects meet AISC, RCSC, ASTM, and DOT requirements efficiently and compliantly.	Bolting and Anchoring Systems, Materials/Engineering/Testing and Inspection	https://www.floridaprecisiontool.com/
435	Emcobe Engineering and Consultants LLC	We deliver fabrication-driven structural steel detailing for industrial and commercial projects as a high-volume production partner and fast-turnaround specialist. We provide advanced 3D modeling, BIM coordination, connection design support, and fully integrated shop and erection drawings. Outputs include CNC, DXF, DSTV, KSS, ABM, gather sheets, bolt summaries, weld maps, revision tracking, and Tekla EPM-compatible reports. Backed by licensed engineers, we enhance constructability, reduce RFIs, and drive faster, more efficient fabrication and installation with precision and consistency. Visit Booth 435 to see how we can support your projects	Detailers, Engineering Consulting	https://www.emcobe.net
440	Vectorshades LLC	Vectorshades is a structural steel detailing firm helping fabricators and project teams turn complex designs into clean, coordinated, fabrication-ready steel. We specialize in Tekla and SDS2 modeling, clash detection, and constructability-driven detailing that reduces rework, RFIs, and delays. Our team supports commercial, industrial, and large-scale structural projects across the U.S., with a strong presence in the Southeast. Known for responsiveness, accuracy, and partnership-driven service, we act as an extension of our clients' teams — delivering steel that fits, builds smoothly, and keeps projects moving.	Detailers, Engineering Consulting, Joists and Deck, Stairs/Railings and Miscellaneous Steel	https://www.vectorshades.com/
441	Code&Steel	Code&Steel is an initiative by Openmind Tech, the only tech team 100% dedicated to the steel industry. With over 50 specialists in digital automation and applied artificial intelligence, we help steel companies become more efficient and profitable by going beyond the limits of existing software. Code&Steel bridges existing systems with custom code to automate what still isn't, unlocking more value without replacing everything, adding complexity, or creating lock-in. We deliver concrete results on real challenges: quoting, scheduling, traceability, interconnection, and mill test management. Practical automation, built for the steel industry.	Software	http://codeandsteel.com/
466	NASCC Exhibit Sales	NASCC: The Steel Conference is an affordable and easy way to reach your target customer. As an exhibitor, you can count on The Steel Conference to deliver more than 6,000 industry professionals; more than any other industry event of its kind. The Steel Conference exhibit hall is your chance to personally interact with key decision-makers in the structural steel industry. When it comes to steel design and construction, these key industry players come to find out what's new, who's got it, and how it can work for them. Don't be left out. Join other top suppliers and manufacturers today!	Other	https://www.nascc.aisc.org/exhibit

500	xPM Construction Project Management	xPM Construction Project Management xPM delivers AI-powered, integrated project management services for the complexity of structural steel construction. From pre-construction governance to real-time cost, schedule, and risk controls, xPM connects owners, designers, and project teams under one intelligent framework. With 200+ projects, $6B+ in managed value, and a 94% on-time delivery rate across 11+ countries, xPM transforms how steel projects are planned, controlled, and delivered — turning complexity into clarity.	Construction and Project Management, Software	https://www.xpmsolution.com/
501	SigmaNEST	SigmaNEST, part of Sandvik Group, is a global leader in intelligent CAD/CAM nesting and Connected Shop software for the fabrication industry. With more than 25 years of experience and tens of thousands of installations worldwide, SigmaNEST empowers manufacturers to cut faster, bend smarter, and connect every stage of production — from quoting and design to shop floor management and delivery. The Connected Shop suite integrates CAD/CAM, MES, and business systems into a single digital ecosystem, enabling fabricators to improve productivity, reduce costs, and make data-driven decisions. 511	AYARI LLC	----"Devil is in the DETAILS" --- AYARI is NO BS Steel Drafting and Engineering firm with a local presence in Houston, TX. AYARI's PAYG (pay-as-you-go) Service model and One-Unified Service model are trend setters in the industry that is enabling small-medium fabricators play in the Big leagues. Our competitive pricing, near-zero error rate and highly-skilled workforce coupled with integrity, proactive communication is what	Detailers, Engineering Consulting, Stairs/Railings and Miscellaneous Steel	https://www.ayarillc.com

		we bring to every project, every time.		
512	Power of Design Group, LLC	Power of Design Group, LLC (POD) is a consulting engineering firm supporting the private and public sectors. Our team of engineers and professionals design, analyze, and maintain new and existing infrastructure. We design retrofits to steel and reinforced concrete systems nationwide and have experience in the analysis of truss and moment frame structures. POD is also involved in connection detailing, fabrication review, and building design and alterations.	Engineering Consulting	http://www.podgrp.com
515	MARKO Metal Systems	With over 45 years of know-how in the segment, Marko has established itself as an industry providing solutions in metal systems for the construction market, which perform more than just the functions satisfactorily, but offer the end user, architects, construction companies, and distributor network, fast, economical and efficient processes. Exclusive manufacturer of the Roll-on metal roofing system and MARKO Joist, the company has the ideal solution for small, medium, or large buildings.	Joists and Deck	https://www.markosys.com
516	Advenser Technology Services Inc	Advenser is a global engineering service provider specializing in VDC and end-to-end BIM & CAD solutions. With a 300+ strong team of skilled Architectural, Structural, Industrial and MEP engineers, we empower construction companies, contractors, architects, and owners to integrate BIM seamlessly—on time and within budget. Our agile processes adapt to evolving project needs, ensuring maximum ROI. We're committed to continuous knowledge sharing and delivering precision on every project, no matter the complexity.	Construction and Project Management, Detailers, Engineering Consulting	https://www.advenser.com/
520	J&F India Pvt. Ltd.	J&F India is a globally established engineering consultancy blending German precision with local expertise to deliver end-to-end design and BIM-enabled solutions across the entire project lifecycle. With a strong presence in India, the UK, Australia, and the US, the company supports diverse sectors—including infrastructure, healthcare, airports, data centers and urban projects—through feasibility studies, structural and MEP engineering, digital modelling, and onsite execution. Headquartered in Chennai, J&F India focuses on innovation, quality and integrated engineering excellence.	Detailers, Engineering Consulting	https://www.jf-india.in/
521	Pragmatic Steel Inc.	Pragmatic Technical Services Structural Steel Detailing and Engineering solutions with over 300+ years of combined experience. An exceptional team of professionals with expertise in their respective fields and well versed in AISC, CISC, NISD, OSHA and other Standard Industry Practices. From designing to building, we give our best to ensure that a project is executed to perfection. Our team has worked on more than 3500+ projects with varying capacities —Power plants, Hospitals and Schools are a few examples. Leveraging cutting-edge technologies like SDS/2 and Tekla Structures, we deliver precise and efficient structural detailing solutions.	Detailers, Engineering Consulting, Other, Stairs/Railings and Miscellaneous Steel	https://pragmatich.com/

522	Kobelco Construction Machinery Japan	Plan safer lifts, faster—directly in Autodesk® Revit®.Cut hours from lift planning, reduce rework, and generate clear submittals your GC and safety team will approve. By using K-D2 PLANNER, you can easily perform lift simulations such as capacity verification and collision checks, which can streamline your steel erection. These features enable the formulation of optimal crane work plans by evaluating feasibility, construction sequencing and durations, and selecting the right crane model for cost-effective execution.	Construction and Project Management, Cranes and Lifts, Erectors, Software	https://www.kobelcocm-global.com/
525	Ezmetal.com	Since 2015 manufacturing steel decking in the Houston area and distributing steel joists. ●Galvanized steel decking SDI certified Galvalume roof panels in a wide range of colors ● Flat sheets ● Trim (flashing) ● Accessories, Fasteners ● SJI Certified Steel joists ● Certified Structural Steel (AISC – AWS) ● Insulated Panels	Joists and Deck, Structural Systems and Components	https://www.ezmetal.com/
527	Phiomega Engineering Inc.	Phiomega Engineering inc. is a high Quality Engineering Service Provider. We provide Footing Design, Member Design, Structural Steel Connection Design Services, Stair, Ladder & Railing Design Services, Shop Drawing Peer Review, Field Fix Engineering, PE Stamping across all 50 US States. We work with Detailers, Structural Steel Fabricators, General Contractors and Engineers. We have completed 200+ successful projects since our inception into the market. We have performed connection design/Misc design services for Data Centers, Schools, Auditoriums, Airports etc.	Detailers, Engineering Consulting, Software, Stairs/Railings and Miscellaneous Steel	https://phiomegaengineering.com/
529	Alpha	ALPHA is a national leader in passive fire protection and building envelope systems, supporting data centers, semiconductor, and large-scale commercial construction. With IBP backing, we bring unmatched labor capacity and financial strength to fast-track projects. We work directly with general contractors and steel fabricators to solve fireproofing challenges early, reducing schedule risk, coordination issues, and rework in the field.	Coatings and Fire Protection	https://www.alphaiwp.com/
530	GY6 Systems LLC	RFID Tracking Solution | Stop Searching. Start Knowing. Find every asset in seconds, not hours. GY6Trac delivers real-time, RFID-based visibility that works anywhere—no infrastructure required. From yards and facilities to forward sites, teams always know what's where. Built by GY6 Systems, a Veteran-Owned & Operated company, GY6Trac eliminates customers' blind spots, complexity, cost, and limitations of traditional tracking systems, keeping operations efficient, connected, and in control.	Bridge Components and Systems, Construction and Project Management, Marking and Traceability, Other	https://www.gy6trac.com
532	Beam AI	Beam AI is a leading steel takeoff & estimating software, helping contractors save 90% time and unlock up to 5X more bid capacity. It covers beams, columns, plates, anchors, & full steel framing, delivering fast, accurate takeoffs and ready-to-use Excel estimates with clear material and labor costs. Leading contractors like Rays Stairs, Rocky Mountain Steel, and Desert Rat Welding are bidding faster & scaling their estimating capacity. Over 1,200 top contractors trust Beam AI to bid up to 5X more. Beam AI is voted the Most Recommended by Software Advice and Best Value by	Software	https://attentive.ai/

		Capterra in 2026, & is rated 4.9 on both platforms.		
533	MetFin Shotblast Systems	MetFin Shotblast Systems is a 40+ year old American manufacturer of industry leading, heavy-duty, automated shotblast equipment. Built on a lead team having hundreds of years of combined experience, we meet the unique production requirements of each customer by providing flexible and innovative solutions. MetFin tailors systems to integrate seamlessly into new or existing operations and provide years of dependable service in this demanding industrial environment. We take pride in building durable, easy-to-maintain blast equipment with a focus on our customers' long term satisfaction.	Other, Stationary Fabrication Equipment, Structural Systems and Components	http://www.metfin.com
540	Portland Bolt & Manufacturing Company	Portland Bolt is a manufacturer and distributor of anchor bolts and construction fasteners. Established in 1912, Portland Bolt manufactures and galvanizes a variety of large, nonstandard fasteners in both the Portland, OR and North Augusta, SC locations. The 137,000-square-foot Portland, OR facility offers bolt manufacturing, plasma plate processing, and in-house hot-dip galvanizing. We are in the process of adding equipment to enhance the manufacturing capabilities of our new Southeast location. We offer short lead times, on-time deliveries, quality products, and outstanding service provided by an experienced sales team.	Bolting and Anchoring Systems, Galvanizers	https://www.portlandbolt.com/
541	Versatile	Versatile puts steel crews in control by turning crane activity into clear, automated data without disrupting your workflow. Our AI-powered sensor mounts to the crane hook and captures every lift and movement on-site. The data becomes actionable metrics that help your team coordinate faster, eliminate manual reporting, and lead with confidence. No more chasing updates or relying on gut feel. Versatile gives you the visibility to stay on pace, avoid delays, and protect profits. It runs quietly in the background, requiring nothing from the field. Just plug it in, take control, and keep building.	Software	https://www.versatile.ai/
543	LECGI Structural Engineering & Detailing	Providing structural design and steel detailing services for commercial and industrial clients is our mission at LECGI. We are a well-established and respected structural engineering firm offering unique building and design services. We use state-of-the-art computer technology and 3-D modeling software that allows us to create the best possible models with minimal error. With the skill and expertise of our team, LECGI is known for being on time and cost-effective with 3-D BIM using Tekla Structures and SDS/2.	Detailers, Engineering Consulting	https://lecgi.us
547	Blue Ketchep	We develop the most powerful app for designing and analyzing structures made with steel beams and columns. We innovate to make things simple. Use our app on iPad, iPhone, Android, and Windows today!	Software	https://www.blueketchep.com
548	Miami Metal Deck	Steel deck fabricator. Metal deck accessories. Purlins. Steel joist provider. Placement drawings. Ships throughout the USA. Exports to the Caribbean and Latin America. Members of The Steel Deck Institute (SDI). Miami-Dade County approved. Competitive pricing, outstanding lead time, and premium customer service. Your trusted source for steel deck.	Construction and Project Management, Detailers, Joists and Deck, Structural Systems and Components	https://www.mmdeck.com

549	Ferra	Ferra is an AI-native steel takeoff platform built for structural fabricators, currently in private beta. We convert construction drawings into auditable beam and column quantities in minutes, reducing manual takeoff time and missed scope. Ferra is built with estimators in the loop, AI handles repetition, professionals retain judgment and control. The result is higher bid capacity and lower estimating risk, without changing how teams work today.	Software	https://bidferra.com
550	Ironworkers / IMPACT	IMPACT is a labor management partnership designed to provide a forum for union ironworkers and their signatory contractors to address mutual concerns and encourage reasonable, balanced solutions. Our primary mission is to expand job opportunities through progressive and innovative labor management cooperative programs, providing expertise in ironworker and contractor training, construction certifications, safety, marketing and construction project tracking and bidding.	Erectors, Other	http://www.impact-net.org
551	American Welding Society	Founded in 1919, the American Welding Society is a nonprofit organization with a global mission: to advance the science, technology, and application of welding and allied joining and cutting processes worldwide, including brazing, soldering, and thermal spraying. By fostering knowledge, embracing change, and providing real-world opportunities through scholarships, fellowships, and workforce development, AWS provides the tools to help members succeed—and to inspire future generations of welding professionals.	Career Services, Materials/Engineering/Testing and Inspection, Other, Welding and Stud Material	http://www.aws.org
556	Seacad	Seacad provides specialist steel detailing services for fabricators and erectors globally, delivering accurate 3D models and shop/erection drawings for structural and miscellaneous steel projects. Our experienced team supports complex commercial, industrial, and infrastructure work, coordinating closely with design teams to resolve issues early and improve constructability, schedules, and cost certainty. With global production capacity and a focus on clear communication, quality control, and on-time delivery, Seacad helps clients bid confidently and execute projects efficiently from design through fabrication and erection.	Detailers	https://www.seacad.com
557	Cronus Steel Detailing LLC	Cronus Steel is a global leader in structural steel detailing, delivering precision-driven solutions for complex projects. With 170+ in-house detailers across multiple global offices, we leverage advanced BIM workflows and cutting-edge software to deliver accurate 3D modeling, shop drawings, and connection design. An award-winning company, Cronus Steel partners with fabricators and contractors worldwide across industrial, commercial, and infrastructure sectors-optimizing workflows, reducing risk, and ensuring reliable, on-time project delivery.	Construction and Project Management, Detailers, Engineering Consulting, Stairs/Railings and Miscellaneous Steel	https://www.cronussteel.com
559	Structural Stability Research Council	Founded in 1944, the Structural Stability Research Council is dedicated to research and education in the stability of steel and steel-concrete composite structures.	Other	http://www.ssrcweb.org

560	American Steel Detailing, LLC	American Steel Detailing is an all US structural and misc. steel detailing firm. ASD does projects all over the US. With a team of 15+ detailers, checkers & project managers, they are capable of completing projects large and small.	Detailers	http://www.americansteeldetailing.com
561	SCHULLER&Company	SCHULLER&Company supports companies in the building industry on their journey towards digitalization. In May 2022, SCHULLER&Company acquired bocad, a detailing software for structural engineering that has been setting standards in steel construction since 1983. bocad is a recognized and proven software used by renowned companies worldwide, with over 500,000 projects successfully delivered. It is known for its high level of quality and accuracy in automatic fabrication deliverables, which helps to avoid wasted time editing drawings, reduces the risk of errors, and minimizes rework on site.	Detailers, Software, Stairs/Railings and Miscellaneous Steel, Structural Systems and Components	https://www.bocad.com
565	American Institute of Steel Construction (AISC)	The American Institute of Steel Construction (AISC) is a non-partisan, not-for-profit technical institute and trade association whose mission is to make structural steel the material of choice by being the leader in structural-steel-related technical and market-building activities, including specification and code development, research, education, technical assistance, quality certification, standardization, market development, and advocacy. AISC represents the total experience, judgment, and strength of the entire domestic industry of steel fabricators, distributors, and producers.	Other	http://www.aisc.org
565	National Steel Bridge Alliance	The National Steel Bridge Alliance (NSBA), a division of AISC, is a national, non-profit organization dedicated to the advancement of steel bridge design and construction. NSBA functions as the voice of the bridge fabricators and steel mills while also partnering with the bridge design and construction community. NSBA's partners include AASHTO, FHWA, state DOTs, design consultants, contractors, and academia. With these resources, NSBA is uniquely positioned to find solutions to the toughest bridge challenges, including those related to cost, sustainability, and performance.	Bridge Components and Systems, Other	http://www.aisc.org/nsba
604	IAPMO Construction Products Group (UES/IBT/QCC)	Construction Products Group of IAPMO is the testing, evaluation, and inspection entity of IAPMO®, connecting the expertise of IAPMO Uniform Evaluation Services (UES), Quality Control Consultants (QCC), and the Institute of Building Technology (IBT) to support innovation across the built environment. UES is one of the most prominent evaluation service providers, recognized by SEAOC and others. Its reports demonstrate that products and systems meet code requirements, as defined by the scope and conditions of use in each report.	Engineering Consulting, Joists and Deck, Materials/Engineering/Testing and Inspection, Structural Systems and Components	http://www.iapmocpg.org
605	FabStation	FabStation was started by fabricators, focused on building production software for the fabrication floor. FabStation, is a cloud based software suite that focuses on providing digital augmented reality tools that will help steel fabricators visualize and complete their work in a more efficient and accurate manner.	Hand Tools/Portable Equipment and Accessories, Materials/Engineering/Testing and Inspection, Other, Software	https://fabstation.com

606	Unytite, Inc.	Established in 1986, Unytite, Inc. operates from a 200,000 sq. ft. facility in Peru, Illinois, just 90 miles west of Chicago. We manufacture high-quality standard and custom fasteners, along with precision cold- and hot-formed components—all 100% made in the USA using domestically sourced materials. Our product range includes ASTM-certified structural nuts and bolts for construction, custom-engineered fasteners for heavy equipment, and automotive forming products. As part of the Unytite Group, we combine American manufacturing expertise with global engineering innovation to deliver reliable solutions.	Bolting and Anchoring Systems, Structural Systems and Components	https://www.unytiteusa.com/
608	voestalpine Tubulars	voestalpine Tubulars is a specialist in the production of seamless round tubes and has supplemented its product portfolio by hot-rolled seamless square and rectangular hollow sections (VTS®-edgeTubes) up to 25 mm wall thickness in 2024. Our VTS®-edgeTubes are ideally suited for use in steel constructions due to their product properties. The product combines state-of-the-art hot-rolling technology with exceptional material quality and complement the portfolio of our circular hollow sections perfectly. Visit us at booth 608!	Mills	https://www.voestalpine.com/tubulars/en/
610	Willbanks Metals Inc.	Celebrating our 50th anniversary in 2024, Willbanks Metals is your premier partner in steel solutions. For over four decades, we've delivered top-quality products and exceptional service, earning trust through reliability and expertise. As a trusted industry leader, we're committed to your success, offering a wide range of steel products to meet your project needs. Visit us at our booth or willbanksmetals.com to discover why we're the preferred choice for quality steel solutions.	Steel Service Centers	https://www.willbanksmetals.com/
611	Bryzos	Bryzos is the fastest growing digital marketplace in the metals industry with an extensive network of buyers and sellers. Bryzos has built the first instant pricing & procurement tool for the industry, facilitating the instant trade of carbon, stainless and aluminum products. Aptly named Gone In Sixty Seconds™, you can purchase or sell your commodity metals in sixty seconds or less using our desktop or mobile application. This is the fastest metal trading experience ever made... and we can prove it. Don't believe us? Download it for free and check it out at www.bryzos.com.	Software	https://www.bryzos.com/
615	ConnectionAI	ConnectionAI is the world’s first AI assistant for steel modeling. Powered by the Steel Brain, it acts as the construction intelligence layer that powers every decision and turns the linear steel workflow into a connected, circular network. By resolving feasibility issues upfront, we unlock the steel supply chain through intelligence and bring predictability to steel.	Detailers, Software	https://connectionai.io/
620	Sumter Coatings, Inc.	Sumter Coatings is a manufacturer of premium industrial and specialty coatings, with a strong emphasis on corrosion resistant primers, intermediates and topcoats for structural and miscellaneous steel. Sumter Coatings is dedicated to producing coatings that protect, beautify, renew and extend the life of our customer's assets while meeting or exceeding the stringent specifications required by today's architects and engineers.	Coatings and Fire Protection	https://www.sumtercoatings.com

622	Interstate Gratings	Interstate Gratings operates in a 120,000 SF fully-integrated manufacturing and fabricating facility, ideally located in the hub of the west. We have a highly experienced in-house detailing and project management team. Our custom automated CAD solutions provide seamless integration with our shop processes and our advanced CRM solution accurately tracks jobs from start to finish. With an expert team of grating professionals, state-of-the-art equipment and integrated technology, Interstate Gratings is prepared to take on jobs of any scope or schedule.	Grating and Grating Fasteners	http://www.interstategratings.com
626	BP	Based in Houston, TX, and with coverage throughout the U.S., our energy services team creates tailored solutions for commercial and industrial customers that optimize their energy supply and demand needs. We provide physical power and gas supply in competitive markets, enable renewable supply and lower carbon products for customers, facilitate demand side and energy management services, and offer a full product suite of energy risk management solutions. We understand your energy needs are unique, and offer tailored solutions to meet them.	Other	https://bp.com/retailenergy
628	Predictive Safety	Predictive Safety's patented and scientifically proven software provides instant visibility on fatigue, illness, emotional distress, or other impediments to alertness. AlertMeter's 60-second test utilizes individual baselines to ensure cognitive fitness, and AlertMeter FRMS predicts and manages fatigue for an average accident reduction of 35%. Both can be used most any device.	Software	https://predictivesafety.com
629	Abrafast.com / The Blind Bolt Co.	The Blind Bolt Master Distribution Center. Manufacturer of Anchor Bolts, All Thread Rod and Tie Rod Assemblies.Stocking Domestic Grade 55 and 105 material. Our abrasive line is quite extensive! Doesn't matter if you're grinding a weld or need a mirror finish, we have the abrasives to get the job done right the first time. Products Distributed:Structural Bolts, Concrete Anchoring Systems, Weld Studs, Self Drilling Screws, Annular Cutter, Magnetic Drills, Grinding Wheels, Cutting Wheels, Flap Discs, Sanding Discs, Sanding Belts, and much more!	Bolting and Anchoring Systems, Hand Tools/Portable Equipment and Accessories, Structural Systems and Components, Welding and Stud Material	http://www.abrafast.com
631	ISD Group USA	ISD Group is a provider of 2D/3D Engineering and Design Software that offers innovative solutions for the Structural Engineering Sector. With over 45 years of experience in the Steel, Metal and Facade Sector, the company is an expert for 2D/3D Modeling Software with Automation to Production Output and integrated Project/Drawing Management. Conceptualize your ideas at high speed with the Extensive Solution for Engineering. To learn more visit www.isdgroup.us	Construction and Project Management, Engineering Consulting, Software, Stairs/Railings and Miscellaneous Steel	https://www.hicad.us/
632	Drivensteel Inc.	Drivensteel Inc Company has formed by group of young enthusiastic engineers, who have vivid experience in construction & infrastructure industry. We designed & built our capabilities with most experienced steel detailing team in this industry. Our innovative approach and continual learning ensure the quality and timely delivered outputs to our clients. We have 350+ detailers on board who are highly experienced in Structural and Miscellaneous projects through out Commercial, Industrial and Residential sector. We have latest	Detailers	https://drivensteel.com/

		software of SDS/2, TEKLA and AutoCAD.		
635	Indiana Steel Products, Inc.	Indiana Steel Products is a domestic manufacturer for bent and threaded steel products. We manufacture in our facility located in northeast, Indiana. We stock round steel bars in diameters from 1/4"-2". Reach out to us for any anchor bolt, J bolt, threaded rod, stud, or smooth dowel needs at (260) 333-7902.	Bolting and Anchoring Systems	https://indianasteelproducts.com/
640	Swisher Tools, LLC	We are a family owned company that specializes in innovative rigging tools for the steel industry. Our products are safer, and more efficient; making your project more profitable.	Cranes and Lifts, Erectors, Hand Tools/Portable Equipment and Accessories, Joists and Deck	http://www.swishertools.com
641	Columbia Safety and Supply	Columbia Safety and Supply is your single-source solution for safety and productivity gear. Our Gear Experts® focus on keeping America's workers safe and productive on the job by getting you the gear you need most. Plus, with our enterprise platform, Columbia Safety PRO, you can seamlessly manage your purchasing process from start to finish.	Hand Tools/Portable Equipment and Accessories, Other, Safety Equipment	http://www.colsafety.com
642	Steel Erectors Association of America	The Steel Erectors Association of America (SEAA) is dedicated to advancing the common interests and needs of all engaged in building with steel. Objectives include the promotion of safety, education and training programs for steel erector trades; development and promotion of standards; and cooperation with others in activities which impact the commercial construction business. SEAA develops strategic partnerships and works closely with industry groups to provide members with industry representation steel design, engineering, fabrication, labor, safety, and training groups.	Other	http://www.seaa.net
647	OTH Pioneer Rigging	Save unhooking time and avoid incident! The Quick-Release LudwigHook is a wireless, radio-controlled lifting hook designed to keep crews safe by eliminating the need for ladders or lift platforms. With the push of a remote, loads can be released from ground level in under two seconds, reducing risk during high or hard-to-reach lifts. Available in 4,400 lb and 11,600 lb working load limits, the LudwigHook features a mechanical fail-safe that remains locked under load even if the battery is depleted, making it not just a tool, but a critical safety device for any lifting operation.	Cranes and Lifts, Hand Tools/Portable Equipment and Accessories, Other, Safety Equipment	https://othrigging.com
648	Gamma Steel Detailing Inc.	Gamma Steel Detailing Inc, based in Los Angeles, provides high-precision structural and miscellaneous steel detailing, connection design, and BIM coordination services. With experienced U.S.-based project managers and a skilled international team, we deliver accurate, code-compliant shop drawings using Tekla Structures. Our mission is simple: zero-error deliverables, on time, every time.	Construction and Project Management, Detailers, Stairs/Railings and Miscellaneous Steel, Steel Service Centers	https://gammasteelus.com/
649	GH Cranes & Components	GH Cranes & Components is a family-owned business established in 1958 manufacturing overhead material handling such as cranes, hoists, gantry cranes, RTGs and jib cranes. Since then, we have installed more than 125,000 equipment worldwide. Our manufacturing capabilities in Texas, as well as a full inventory of spare parts and well-trained service crew, assure your total satisfaction and performance. www.ghcranes.com	Cranes and Lifts	www.ghcranes.com

650	Structural Engineering Institute of ASCE	SEI advances and serves structural engineering while influencing change on broader issues shaping civil engineering. SEI is 30,000+ members strong and involves practicing engineers, students, research scientists, academics, technologists, material suppliers, contractors, and owners. SEI members are leaders in structural engineering practice and academia, providing great networking opportunities and driving the practical application of cutting-edge research. SEI produces technical publications, journals, conferences, continuing education, codes and standards, and more. Join us to advance your career and the profession!	Other	http://www.asce.org/SEI
652	Maruichi Leavitt Pipe and Tube	Maruichi Leavitt Pipe and Tube is an industry leader, operating four tube mills, with one of the broadest size ranges of structural (ASTM A500) tube, mechanical (ASTM A513) tube, standard pipe (ASTM A53) and automotive (JIS G3445) in the industry. Based in Chicago, IL.	HSS Manufacturers	http://www.maruichi-leavitt.com
653	Accurate Perforating	Since 1942, Accurate Perforating has grown from a small machine shop into a 210,000-sq. ft. full-service perforated sheet metal supplier offering complete perforating, fabricating, and finishing solutions. Whether you need perforated aluminum, carbon steel, galvanized, stainless steel, brass, or copper in perforated sheets, coils, blanks, parts, finished components, or architectural metal, decorative metal, railings, facades, or sunscreens — with the broadest range of thickness, hole size, or pattern — we're the perforated sheet manufacturer you can trust. We specialize in custom and complex work. Made in Chicago.	Bridge Components and Systems, Materials/Engineering/Testing and Inspection, Other, Stairs/Railings and Miscellaneous Steel	https://www.accurateperforating.com
657	4XStruct, Inc.	At 4xstruct, we believe that precision in steel detailing is the foundation of successful construction projects. Our mission is to streamline the fabrication process by delivering drawings that require zero revisions. With our AI tools which will be showcased in the show it will help fabricators and us in curtailing the schedules and giving top notch quality! With expertise spanning structural steel, miscellaneous metals, and advanced BIM modeling, we serve clients across the United States, Canada, and Australia with consistent quality and reliability.	Detailers, Engineering Consulting, Stairs/Railings and Miscellaneous Steel	https://www.4xstruct.com/
658	National Institute of Steel Detailing, Inc.	Comprised of industry professionals and company owners, we are an international association advocating, promoting, and serving the interests of the steel detailing industry. We drive advancement through networking, education, certification, and working together to promote a better understanding of the importance of detailing services in the construction process.	Detailers	http://www.nisd.org
659	United Structure Detailing Inc.	Quality Assurance : On-time Delivery : Effective Coordination - United Structure Detailing Inc (USD Inc.), offers Steel Structure & Miscellaneous Detailing - Connection Design with P.E stamped (All States) services. We specialize in crafting detailed shop drawings, 3D models, BIM, erection plans, etc. USD also provides NC1, IFC, CNC, DXF, DSTV, ENC, KSS, Reports, and Other supporting production files. USD holds both AISC and NISD memberships. Our team of	Detailers, Engineering Consulting	https://unitedstructuredetailing.com/

		seasoned professionals (detailers, checkers & project managers), equipped with advanced software and technologies, ensures to meet the quality and schedule.		
660	Bennett Services, LLC	Bennett Services, LLC is a Greenfield, Indiana based steel detailing firm, dedicated to providing exceptional detailing and design services. Focusing on structural and miscellaneous steel detailing services. Our team of detailers have extensive experience with multi-story, commercial, and residential buildings. As well as designing unique stairs, rails, etc. Our detailing capabilities: Anchor rod plans, Erection plans, Columns, Beams, Bracing, Grating, Stairs, Handrails, Gates, Embeds, Ladders, Lintels, Anchor rods, Roof frames, Bollards, Girts, Sag Rods and so much more! Reach out if you need help with a project!	Detailers	https://bennettservicesllc.com/

710	U.S. Bridge	U.S. Bridge founded in 1936, is a Cambridge, Ohio-based steel bridge fabricator serving federal, state, and municipal agencies. We deliver custom-engineered, prefabricated steel bridge systems world wide with precision manufacturing, rapid deployment, and full compliance with AASHTO, AWS, and AISC standards. 90+ years of proven infrastructure performance. An AISC Certified Major Steel Bridge Fabricator and ISO 9001-registered manufacturer.	Bridge Components and Systems	https://usbridge.com/
713	Nexont, LLC	Nexont, LLC is a global steel detailing and engineering services firm built for today’s and tomorrow's fabrication and construction demands. We specialize in structural and miscellaneous steel detailing, connection design with PE stamping, estimation, material take-offs, and project management using SDS2 and Tekla Structures. With 50+ clients across the US and Canada and 100+ professionals worldwide, we deliver accurate, fabricator-friendly drawings. ISO-certified and an active member of AISC and NISD, Nexont is a future-ready	Detailers, Engineering Consulting, Other, Steel Service Centers	https://nexontengineering.com

		team redefining steel detailing.		
714	DBM Vircon	We make design constructible. DBM Vircon is a premier construction modeling, detailing, and digital engineering company. With our vast experience, we help our market leader customers including owners, engineers, EPCM firms, general contractors and fabricators build with confidence across the globe. Our proven methods and preconstruction collaboration platforms help our clients compress schedules and mitigate cost overruns by proving the design constructible and complete.	Bridge Components and Systems, Construction and Project Management, Detailers, Engineering Consulting	http://www.dbmvircon.com
717	Structural Bolt and Manufacturing, Inc.	Since 1985, Structural Bolt & Manufacturing has been providing the finest products and services in the structural fastener industry. We specialize in heavy construction fasteners and anchoring products for the structural steel industry. As one of today's leading anchor rod manufacturers and structural fastener distributors in the United States, our capabilities are limited only by an engineer's imagination.	Bolting and Anchoring Systems, Hand Tools/Portable Equipment and Accessories	http://www.structuralbolt.com
721	DGS Technical Services, Inc.	DGS Group is a client-centric and performance-driven organization offering end-to-end solutions in Engineering, Design, and Structural domains, headquartered in Elgin, IL, USA. Our global footprint includes offices in the US, Canada, UK, and Gulf. With certified American P.E. and technical Project Managers boasting over 40+ years of experience, we leverage smart software like Tekla and SDS/2. Our production team comprises highly skilled engineering squads dedicated to Structural Engineering, Steel Detailing, Bridge Detailing, Connection Design, Estimation, and Estimodeling.	Bridge Components and Systems, Detailers, Engineering Consulting, Structural Systems and Components	http://www.dgsts.com
725	Lichtgitter USA	Based in Houston, TX, Lichtgitter USA manufactures and fabricates grating products using state of the art technologies. Lichtgitter’s production procedures and machinery, many protected by patent, were specially designed for the Lichtgitter production process. Gratings for normal and special loading requirements are produced with highly integrated welding and fabrication processes, and our sales and service departments technical expertise are geared to address each of our customer’s specific job needs. Products: Steel Gratings(Welded and Press-Locked), FRP Gratings and Related Products, Perforated Planking,	Grating and Grating Fasteners	https://www.lichtgitterusa.com/
730	Terracon Consultants, Inc.	Terracon’s materials testing and inspection professionals are ready to journey with you and help you reach your goal. Since our founding in 1965, Terracon has become a thriving, employee-owned, multidiscipline engineering consulting firm. Our real-time data-driven insights and innovations create an unmatched client experience that spans the lifecycle of any project from earth to sky.	Engineering Consulting, Materials/Engineering/Testing and Inspection	https://www.terracon.com/service/materials/structural-steel-nondestructive-testing/
731	GRM Custom Products	For over 60 years, GRM Custom Products has worked with Engineers, Steel Fabricators, and Contractors to provide customized high-quality products. The exclusive fabricator of Fluorogold Slide Plates in North America, we manufacture to meet your project’s exacting specifications and expedited timelines, providing you with high quality products and consistent deliveries. We have grown our custom material offerings across bearing and thermal break pads. Now offering you a full	Bridge Components and Systems, Engineering Consulting, Hand Tools/Portable Equipment and Accessories, Structural Systems and Components	http://www.grmcp.com

		line of Plastics and FRP Composite options, please stop by and visit us, we look forward to talking with you.		
733	Informed Infrastructure	Informed Infrastructure is the leading media outlet for civil and structural engineers. We reach 40,000 readers via our magazine, weekly eNewsletter, web site, video content, surveys and our industry leading continuing education platform.	Other	https://informedinfrastructure.com/
734	TDS Industrial Services Ltd.	TDS - where BETTER IS OUR STANDARD. TDS has been in the steel detailing business for over 45 years and continues to service our steel fabrication customers by providing exceptional value with certainty and confidence. Being an ISO 9001:2015 certified company we understand the need to manage and mitigate risks associated with offshore detailing and have developed a system and procedures to have 100% control over all aspects of projects. From the smallest misc projects to the heavy industrial, we have the team to do it all.	Detailers, Stairs/Railings and Miscellaneous Steel	http://www.tdsindustrial.com
735	O'Donnell Metal Deck & Bar Joist	We don’t just "broker" joist and deck — we manage the joist & deck entire process in-house. Beginning with estimating, sales, project management, detailing, freight, and delivery. We control every step except manufacturing, ensuring tighter coordination, fewer delays, and better project outcomes. Contact us to see why contractors trust us for over $100M in joist and deck spend annually—across 1,000+ projects nationwide.	Joists and Deck	https://odonnellmetaldeck.com
741	Atema Inc.	Atema specializes in building tailored AISC-compliant quality management systems for fabricators and erectors, while also offering quality assurance oversight on large bridge fabrication projects. We deliver specialized training and management assistance, guiding companies toward meeting the certification requirements of various infrastructure industry sector programs.	Engineering Consulting	http://www.atema.com
743	Threadline Products, Inc.	FAST. FLEXIBLE. AT YOUR SERVICE. Threadline Products, Inc. has supplied threaded products and miscellaneous steel to the construction industry since 1984. We can furnish any bolt or fastener for commercial building construction and concrete; F1554 anchor bolts, A325 structural connection bolts, grade 5/8 bolt, socket headed bolts , rebar and more. Threadline has carbon, stainless and alloy material in stock ready to fabricate and meet your custom requirements with expert welders on our fabrication team. With 1-2 day shipping available to over half the US, our speed is unmatched. We are D.B.E/HUB certified.	Bolting and Anchoring Systems	https://threadlineproducts.com/
746	Cutting Edge Steel	Cutting Edge Steel (CESTEEL) is redefining American fabrication and manufacturing. We deliver precision metal products and assemblies at scale, powered by advanced automation, modern software, and a highly skilled workforce. Serving commercial, industrial, and OEM partners nationwide, CESTEEL provides speed, reliability, and true manufacturing excellence across the full production lifecycle.	HSS Manufacturers, Stairs/Railings and Miscellaneous Steel, Structural Systems and Components, Welding and Stud Material	https://cesteel.com/

749	Action Stainless	Action Stainless & Alloys is a full-line fabrication center. We're stocked with a diverse inventory of stainless steel and aluminum products. From plate to pipe and everything in between, we specialize in being able to provide all the items on a Bill of Materials. Housing multiple cutting processes under the same roof means there isn't a cut or order request Action Stainless can't fill. Stop by to learn all of the capabilities of Action Stainless and discuss how we can help take your project to the next level!	Stairs/Railings and Miscellaneous Steel, Steel Service Centers, Structural Systems and Components, Welding and Stud Material	https://www.actionstainless.com/
750	Albina Co. Inc.	Albina Co., Inc. is a trusted leader in precision steel bending and fabrication, offering unparalleled expertise in curving structural steel, plate, and other metals to meet the diverse needs of industries worldwide. Albina Co. delivers cutting-edge solutions for complex architectural, industrial, and infrastructure projects. Albina Co. specializes in custom bending and rolling services, including rotary draw bending, roll bending, incremental bending, and induction bending. From small-scale artistic projects to massive structural applications, the company excels in crafting precise radii and unique shapes with tight tolerances.	Bender/Roller	https://www.albinaco.com
753	DÖRKEN COATINGS	DÖRKEN is a manufacturer of coating systems that are alternatives to Hot Dip Galvanizing and Mechanical Zinc Plating. The Zinc-Flake coating systems from DÖRKEN are approved for A325 and A490 structural fastener assemblies per ASTM F3125. Our products provide long term corrosion protection for steel components and are applied in thin layers which is ideal for threaded components. Retracing threads to remove excess coating material for proper fit and function of fasteners is not necessary with DÖRKEN Zinc-Flake coating systems. Additional benefits of our coatings include PFAS-Free lubrication, weather resistance, and global availability.	Coatings and Fire Protection, Galvanizers, Materials/Engineering/Testing and Inspection, Structural Systems and Components	https://www.doerken.com/us/en/home
757	Chapel Steel	Chapel Steel is one of the nation's largest distributors of carbon, high strength, abrasion resistant and specialty grades of steel plate. We are an industry leader of value-added services supporting a vast customer base of end use markets. Our innovative approach means you get the benefit of state-of-the-art technology coupled with personal, professional service. This approach results in a business partner that strives to meet your needs in order to help your business grow.	Steel Service Centers	http://www.chapelsteel.com
758	Research Council on Structural Connections	The Research Council on Structural Connections (RCSC) is a leading organization that guides research on structural steel connections. It develops standards and best practices for the design, fabrication, and installation of bolted connections, ensuring safety and reliability. RCSC fosters collaboration among professionals to address challenges, promote innovations, and support education. Its work influences codes and practices globally.	Bolting and Anchoring Systems, Other	http://www.boltcouncil.org

760	Steel Joist Institute	The Steel Joist Institute (SJI), a nonprofit organization of active joist manufacturers and other organizations and companies connected to the industry, was founded in 1928 to address the need for uniform joist standards within the industry. Today, the Institute continues to maintain the standards for steel joist construction. In addition, the SJI provides educational opportunities for construction professionals utilizing a library of printed publications and both live and recorded webinars. We also offer assistance in identifying existing joists in buildings undergoing retrofit.	Joists and Deck, Structural Systems and Components	http://www.steeljoist.org
761	Steel Deck Institute	Founded in 1939, the Steel Deck Institute (SDI) is a trade association representing steel deck manufacturers and those manufacturing products used in conjunction with steel deck. The SDI actively publishes design manuals, develops standards for steel roof and floor deck, offers website tools, provides an industry standard EPD, offers educational opportunities, and supports research related to steel deck. Our most recent publications are the 2022 ANSI Standards. These include the new and combined ANSI/SDI SD-2022, and the renewed ANSI/SDI T-CD-2022 and ANSI/SDI QA/QC-2022. Download at www.sdi.org.	Joists and Deck, Structural Systems and Components	http://www.sdi.org

769	Elevate Design Group		Other	https://www.elevatedesigngroupllc.com
800	Hartford Standard Company, Inc.	Hartford Standard Company, established in 1959, offers product lines that are proudly made in the USA at our metal stamping facility located in Hartford, Kentucky. We manufacture square pattern top, square flat top, rectangular pattern top, rectangular flat top, round and round bollard post caps in a wide variety of sizes and solid metal alloys. We manufacture dust caps in several sizes and different styles along with stainless steel wear rings and torsion beam end caps. We own all of our tooling/dies. Our commitment to our customers is to offer domestically manufactured quality products at a fair price shipped in a timely fashion.	Other	https://www.hartfordstandard.com
801	Threaded Fasteners, Inc.	Threaded Fasteners Inc. is a 100% Employee-Owned company specializing in the manufacturing, custom packaging, and distribution of steel fasteners including A325 Structural Bolts, Anchor Bolt Assemblies, Hex Nuts, Flat Washers, Plate Washers and more. With 445 Employee-Owners, 5 Manufacturing Plants, In-house Galvanizing, 20 locations and $25 million in Inventory across the U.S., we are strategically positioned to serve our customers with quality, speed and reliability. We proudly offer parts that are 100% melted & manufactured in the USA to meet the global needs of our customers.	Bolting and Anchoring Systems, Bridge Components and Systems, Galvanizers	https://threadedfasteners.com
805	Miner Grating Systems, a Powerbrace Company	Miner Grating Systems is North America's leading manufacturer and fabricator of grating products.Our lines consist of bar grating (Premier Grate), diamond safety grating (Premier Diamond), and round hole safety grating (Premier Grip). Our mission is to provide the highest quality grating products and be the most cost effective solution provider.We welcome the opportunity to partner on any projects requiring grating for steps, platforms, or walkways for use on OEM	Grating and Grating Fasteners	http://www.minergrating.com

		equipment or in plant maintenance.		
807	Holloway Steel Services	Holloway Steel Services we specialize in Structural Steel Rolling, Plate Rolling, ASME Code Vessels, Shop Fabricated Tanks and CNC Plasma Cutting. Hollowy Steel Services is one of the premier steel fabricators serving customers in Texas, Colorado, Oklahoma, Arkansas, New Mexico, Louisiana, Arizona and nationwide. Holloway Company Inc., is a family owned and operated enterprise that has been in business since 1971.	Bender/Roller	https://www.hollowaycompanyinc.com/
809	Charlie Irwin Painting, LLC (CIP)	CIP is a top commercial painting, industrial coatings, sandblasting and fireproofing contractor based outside Nashville TN. In business since 1984, CIP serves our painting, coatings, sandblasting and fireproofing clients in Nashville and across the Southeast. We are committed to being the best contractor in the industry. We are a locally owned and operated business with the ability to handle any size commercial painting project.	Coatings and Fire Protection	http://www.cipaint.com
811	Copper State Bolt & Nut Co.	Copper State supports fabricators and erectors throughout the U.S. with product that ranges from structural fasteners, hex bolts, TC bolts, anchor bolts, double-end studs, and other manufactured specials. We support fabricators in their shop with tools and accessories, cutting tools, abrasives, safety products, and other industrial supplies. Copper State has 30+ locations in the western U.S. providing local support, and we are stocked heavily with structural inventory in Phoenix, Denver, Reno, Salt Lake City, and Spokane. Site support includes sequencing and logistics, product labeling and identification, online cert management, and VMI.	Bolting and Anchoring Systems	https://www.copperstate.com/
812	Nelson Stud Welding	Nelson® has been creating powerful, cost-effective stud welding fasteners and equipment — providing engineered components, training, and application support that improve productivity for construction, nuclear, shipbuilding, and industrial markets. • Complete system integration and technical support • Manual, semi-automated, and automated systems • Comprehensive product range	Engineering Consulting, Erectors, Welding and Stud Material	https://www.stanleyengineeredfastening.com/america/en/brands/nelson
815	Shachihata Inc. (U.S.A.)	Shachihata began over a century ago as ink chemists, developing advanced formulations and marking technologies that quickly set new industry standards. This early commitment to innovation established the company as a leader in the marking industry. Building on our strong heritage, we have expanded into the industrial sector, bringing with us, our ink expertise and engineering capabilities. We offer solution-based marking products designed for industrial and construction environments. From heavy-duty applications to specialized surface marking, our solutions are developed to withstand demanding conditions while delivering consistent results.	Bridge Components and Systems, Hand Tools/Portable Equipment and Accessories, Marking and Traceability	https://Shachihata.com
816	DACS, Inc.	DACS, Inc., with a plant strategically located in Portsmouth, VA, manufactures roof and floor decking. Since 1987 DACS has been providing the construction industry with affordable products and quality services. Our continued growth is fueled by loyal customers and innovative products. With a full line of roof products, including deep decks and cellular decks, as well as	Joists and Deck	http://www.dacsinc.com

		composite and non-composite floor decks, DACS is sure to satisfy all your decking needs. Please note we also offer our products in carbon steel, stainless steel and aluminum!!!!		
817	Bay Standard Manufacturing	Domestic All Thread Rod Manufacturer	Bolting and Anchoring Systems	https://www.baystandard.com
821	Voss Engineering, Inc.	Voss Engineering, Inc. provides expansion/slide bearing assemblies, bearing pads, and isolation materials for highway bridges, industrial structures, machines, process piping, and commercial buildings. Voss' product line includes: SORBTEX (preformed fabric pad/cotton duck pad/CDP), VSB Slide Bearings (PTFE and steel plate), VTB (thermal break pad), NEOSORB (AASHTO grade neoprene), FIBERLAST/VOSSCO (random oriented fiber pads) the other structural bearing pad materials.	Bridge Components and Systems, Other, Structural Systems and Components	http://www.vossengineering.com
823	Silverline Finishing	Silverline Finishing – Industrial Coatings Solutions Silverline Finishing is a specialized industrial coatings company delivering high-performance surface protection and finishing solutions for commercial, industrial, and heavy-equipment applications. With a focus on durability, corrosion resistance, and precision aesthetics, Silverline Finishing provides advanced coating systems designed to extend asset life, improve performance, and enhance visual appeal across multiple industries.	Coatings and Fire Protection, Erectors, Materials/Engineering/Testing and Inspection, Transportation and Logisitcs	https://silverlinefinishing.com/
825	Thermal Bridging Solutions	Owner and Mechanical Engineer Rob Haley has over 13 years' experience solving thermal bridging problems in the building envelope. Prior to starting Thermal Bridging Solutions, Rob was a partner at Armadillo NV. There, he was responsible for the research, development and marketing of Armatherm™ thermal break materials. Prior to that, Rob was the engineering manager at Fabreeka International where he developed the first thermal break for bolted, steel connections - the Fabreeka TIM™ material. Connect with us for recommendations on which thermal break material to use for your transition and interface details.	Structural Systems and Components	https://thermalbridgingsolutions.com/
827	Harbor Fab	Harbor Fab is a nationwide miscellaneous steel fabricator serving industrial and commercial construction since 1972. Built by fabricators for fabricators, we specialize in stairs, railings, ladders, embeds, structural components, and pre-engineered miscellaneous steel solutions fabricated to project-specific requirements. With a multi-facility footprint, Harbor Fab delivers the capacity, consistency, and responsiveness required for high-volume, complex work. Known as the Easy Button for Misc Metals, our teams simplify coordination, manage details proactively, and follow through, making it easier for our partners to execute demanding projects.	Stairs/Railings and Miscellaneous Steel, Structural Systems and Components	http://www.harborfab.com
830	IRyS Global Inc.	Your Desktop without Limits. Bring SDS2 Detailers, Management, Engineers and Fabricators together in one place with IRyS Global's remote desktop solution. IRyS utilizes premium hardware and is a fast, reliable solution capable of hosting your entire desktop on the cloud. Feel secure with 24hr support, multiple points of data back-up and no contracts. Low Monthly fee. No data limits. Cancel any time. Access your data	Detailers, Engineering Consulting, Other, Software	https://www.irysglobal.com/

831	Brown Strauss Steel	Brown Strauss is the premier structural steel service center in the United States. We have the deepest inventory for your wide flange beam, structural tube, pipe, structural channel, structural angle and your other structural needs. Brown Strauss has over 120,000 tons of structural steel on the floor ready for next day delivery. Since our founding in 1905 we've grown to ten locations serving 24 states, and we're proud to be 100% employee-owned.	Steel Service Centers	http://www.brownstrauss.com
832	Seyco Joist	Steel fabricators of steel joists and steel decks.	Joists and Deck	https://seycojoist.com/
835	Blair Corporation	Blair Corporation specializes in the fabrication of stainless steel cables for hand rails in cable railing projects. We supply high performance wire ropes, Casar and Bridon, as well as aircraft cable,cable rail and accessories, cable clamps, and turnbuckles used in safety.	Other	http://www.blairwirerope.com
841	Nitto Kohki U.S.A., Inc.	We manufacture the automatic feed magnetic base drills that self-regulate feed speed for optimum cutting with a number of safety features. These machines with JetBroach carbide-tipped cutters can significantly increase production while reducing labor hours and hazardous work. We also manufacture many other metalworking tools including portable Hydraulic Punches, Bevelers, Pneumatic and Electric power tools.	Other	http://www.nittokohki.com
843	Service Steel Warehouse	Service Steel Warehouse is a full-service, independent, structural carbon steel supplier serving customers across the US. Headquartered at 8415 Clinton Drive, Houston, Texas, 77029, near the Houston Ship Channel with rail access to the Port of Houston and the mainland, Service Steel uses its efficient transportation system to ship steel around the globe. With additional locations in Baton Rouge, LA, Amarillo, TX, and Hammond, IN our expansive inventory, competitive pricing, and intense commitment to customer satisfaction form the foundation of our growth as an industry leader since 1965.	Steel Service Centers	https://www.servicesteel.org/
847	EHS Momentum, LLC	We make life easier for safety teams by helping you integrate safety management into operations. Our state-of-the-art safety management software and industry-leading consulting will help you increase productivity. At EHS Momentum, our goal is to deliver simple, affordable, and proven environmental, health, and safety best practices to any size business. We are truly a 1-stop safety shop for Fab Shops - SDS, Training, Program Guidance, and Policies. Let us help you make your life easier today.	Bar Coding Systems and Equipment, Safety Equipment, Software	https://www.ehsmomentum.com
848	Carboline	Carboline creates value in steel construction by manufacturing a broad portfolio of protective materials that preserve structural integrity, extend life cycle, and protect people and property. From high-performance protective coatings to life-saving passive fire protection, Carboline develops products that meet each project's performance requirements while optimizing constructability, accelerating schedules, and saving time and money. Carboline is on the cutting edge of steel corrosion protection for major bridge, legacy and emerging energy, and hyperscale data center and	Coatings and Fire Protection, Materials/Engineering/Testing and Inspection	http://www.carboline.com

		advanced manufacturing construction projects worldwide.		
849	American Galvanizers Association	The American Galvanizers Association (AGA) is a non-profit trade association dedicated to serving the needs of after-fabrication galvanizers, fabricators, specifiers, architects, engineers, and contractors. The AGA provides technical support on today's innovative applications and state-of-the-art technological developments in hot-dip galvanizing for corrosion control. The AGA also provides a number of services to galvanizers and zinc producers in the industry. The AGA celebrates 90 years of preserving the past, enhancing the present, and protecting the future.	Construction and Project Management, Galvanizers, Materials/Engineering/Testing and Inspection	https://galvanizeit.org
851	Nexus Steel Detailing, Inc.	Nexus, with a highly experienced staff, provides connection design & steel detailing services for industrial and commercial steel structural projects. Detailing services include 3D modeling using Trimble Tekla software, generation of erection drawings, detail drawings, gather sheets, NC, DXF, KSS, EJE, SDNF IFC files and customized reports per customer requirements. Connection Design Services include design of connections per AISC standards in ASD or LRFD. We have the capability to design all connection types and the expertise to produce unique and complex designs in Excel or Mathcad. We maintain PE licensure in several states in the US.	Detailers, Structural Systems and Components	https://www.nexus-es.com
852	Chicago Clamp Company	Chicago Clamp Company provides an innovative method for framing roof openings and supporting rooftop loads with no welding or drilling. This standardized method for connecting joists and beams allows structural engineers to focus on load distribution rather than attachment apparatus or welding concerns. With up to 4,000-lb capacity per system, it is ideal for the safe and economical framing and installation of rooftop units, sky lights, exhaust fans and vents.	Bolting and Anchoring Systems, Safety Equipment, Structural Systems and Components	http://www.chicagoclampcompany.com
856	Arteras Inc.	Arteras Inc. is a comprehensive structural steel detailing & Engineering services company established by steel detailing professionals with more than 18 years' experience. Our business model focus on developing your structure with precision and quickness using intelligent resources such as Tekla Structures, AutoCAD & SDS/2. Arteras provides connection design services for all types of structural steel and Miscellaneous Steel.	Detailers	https://arteras-inc.com/
857	Larson Engineering, Inc.	Larson specializes in structural engineering for steel fabricator design services, ensuring the integrity and stability of your projects. Our engineers offer detailed design, precise analysis, and thorough detailing that seamlessly integrate structural components into a resilient framework. By working closely with architects, fabricators, and contractors, we ensure our solutions are compatible with construction practices. We are licensed in all 50 states, 9 Canadian Provinces, and 3 Territories. Larson delivers dependable, results-driven engineering for your most complex projects.	Engineering Consulting	https://www.larsonengr.com

859	Phoenix Technical Marketing	Marketing firm for technical products and services. Our team of engineers and marketing experts brings real world experience in construction, manufacturing, and technology, delivering industry specific strategies that help technical companies grow, generate leads, and scale with confidence.	Other	https://phoenixtechnicalmarketing.com/
863	StruCalc	At StruCalc™, we believe that safe, well-designed structures should be accessible to everyone—not just those who can afford an engineer. Our passion for making the world safer drives us to give back to the communities around us. Every project we support is a step toward creating safer homes, schools, and buildings for all.	Other, Software	https://strucalc.com/
865	Phoenix Engineering and Consulting, Inc.	Phoenix Engineering is a team of highly skilled professionals with a broad range of expertise which enables us to deliver projects of varying scope, type, and complexity. We are problem solvers at heart and tailor practical solutions to fit our Customers' needs. With licensed structural, mechanical, and electrical engineers and licenses in over 45 states, we are a nationwide, turnkey solution for our customers. Call us when you need a partner who cares and is always there for you. If we can't help, we'll connect you with someone who can! If you need a reliable engineering Team for your next project, please reach out!	Engineering Consulting	https://phoenixengineering.com/
866	Steel Systems Innovation Research Lab		Other	https://ssirl.cee.wisc.edu/
867	AMPP	AMPP is the largest global community of corrosion and protective coatings professionals with over 40,000 members and 185 chapters around the world. We are dedicated to advancing technical and practical expertise in corrosion prevention and control though our standards, education courses, certification programs, coatings contractor accreditation, publications, and conferences and events.	Coatings and Fire Protection, Materials/Engineering/Testing and Inspection, Other	https://ampp.org/home
868	Association of Women in the Metal Industries	The Association of Women in the Metal Industries (AWMI) is a professional organization dedicated to advancing the growth and success of women in the metals industry. With 21 chapters across the United States and Canada, AWMI provides opportunities to connect, learn, and lead through networking, mentorship, and educational programs. Membership is open to both women and men, creating an inclusive community where everyone can build skills, foster collaboration, and shape the future of the industry.	Other	https://www.awmi.org/

904	KTA-Tator	KTA provides government, facility owners, engineers and contractors peace of mind that the integrity of steel and concrete structures are properly assessed and protected. KTA provides professional consultation and support during any phase of a project - design, construction, post-construction and maintenance. KTA's specialties include steel and concrete fabrication inspection; NDT; coatings and corrosion engineering	Construction and Project Management, Engineering Consulting, Hand Tools/Portable Equipment and Accessories, Materials/Engineering/Testing	https://kta.com

		and inspection; field and lab coatings failure analysis; and coatings training. KTA also distributes a complete line of field inspection instrumentation.	and Inspection	
905	The Walsh Group	Founded in 1898, The Walsh Group is a fourth-generation family-owned business providing design, build, finance and operation services for a wide variety of construction projects. We are consistently listed among the largest contractors in the United States, operating out of 21 strategically located regional offices across North America. Walsh has been an AISC certified steel erection contractor for over 15 years focusing on complex bridge structures.	Erectors	http://www.walshgroup.com
907	Ohio Gratings, Inc.	When the details matter, we help you get them right. Ohio Gratings, Inc.® brings more than 55 years of experience to the design, manufacture and fabrication of metal bar grating solutions. As the only privately owned full-line grating manufacturer in the U.S., we support aluminum, carbon steel and stainless steel applications that require thoughtful coordination and consistent execution. Our team works alongside customers with a focus on durability, constructability and long-term performance. We “Make It Right and Ship When Promised” to keep your projects “A Step Ahead.”	Grating and Grating Fasteners, Safety Equipment, Stairs/Railings and Miscellaneous Steel, Structural Systems and Components	http://www.ohiogratings.com
908	HYTORC	HYTORC makes bolting safer and simpler. With over 50 years of experience focused entirely on developing the highest quality bolting systems, HYTORC is among the most trusted names in the industry. From industrial plants to refineries, power plants, aircraft hangers, high rise buildings, overhead and ancillary structures, solar farms and wind turbines; we have developed solutions for every bolting application imaginable. Whether your preferences run towards pneumatic, hydraulic, electric, or battery-driven bolting tools - we've got you covered. Our bolting systems support a circular economy through 'demountable' connections.	Bolting and Anchoring Systems, Hand Tools/Portable Equipment and Accessories, Safety Equipment, Structural Systems and Components	http://www.hytorc.com
909	Motioneering	Motioneering has designed and implemented damping systems for some of the world's tallest and most ambitious structures. Our systems promote occupant comfort and overall building performance by efficiently mitigating vibrations from wind loads, pedestrian movement and other activities.Whether the project is a skyscraper, a bridge, or other structure, we collaborate closely with architects and fellow engineers to translate our rigorous technical analysis into lasting value for clients.	Bridge Components and Systems, Engineering Consulting, Other, Structural Systems and Components	https://www.motioneering.ca/
911	Rosler Metal Finishing USA	When it comes to surface finishing, Rösler is naturally the number one choice for many companies across the globe. For over 90 years, the name Rösler has stood for the highest quality in the production of machines and integrated systems for mass finishing and shot blasting as well as the development and production of dedicated consumables. To put it simply – surface finishing is in our DNA!	Bridge Components and Systems, Other	https://www.rosler.com/en
913	Badger Products USA		Hand Tools/Portable Equipment and Accessories, Other, Safety Equipment, Welding and Stud Material	https://badgerproductsusa.com/

914	Thermal Spray Depot/Clemco Denmark	Clemco Denmark and Thermal Spray Depot have formed a strategic partnership to deliver automated grit blasting, thermal spray, and industrial painting systems across North America. The partnership combines Clemco Denmark's robotic and gantry-based surface preparation systems with Thermal Spray Depot's expertise in thermal spray processes, system integration, and U.S.-based execution. Together, we provide repeatable, scalable automation that improves consistency, safety, and throughput. Our robots always show up, don't take breaks, and never fail the drug test.	Bridge Components and Systems, Coatings and Fire Protection, Galvanizers, Materials/Engineering/Testing and Inspection	https://www.thermalspraydepot.com/
916	Grating Systems	Since 1984, Grating Systems has been a trusted provider of carbon steel, stainless steel, aluminum, and fiberglass grating solutions. From concept to completion, we deliver fully fabricated projects tailored to the unique needs of a wide range of industries. At Grating Systems, we're committed to building more than just projects—we're building 'Grate' relationships.	Grating and Grating Fasteners, Other	https://www.gratingsystems.com/
917	R.J. Watson, Inc.	R. J. Watson, Inc. delivers a diverse and custom range of products and services to customers around the world, providing high load, multi-rotational bearings, seismic isolation devices, and expansion joint systems to the bridge, highway and heavy construction industry.	Bridge Components and Systems	http://www.rjwatson.com
920	Swan Transportation	Swan is a full-service logistics company servicing the US, Canada, and Mexico. Allow us to take you where you need to go by utilizing our knowledge, advanced technologies, and attention to detail to help us form unique solutions. Because of our proactive approach, ability to stay flexible, and continuous communication, we will quickly become a premier supply chain partner for your business, all day, every day.	Other, Transportation and Logisitcs	https://swantrans.com/
921	Infasco	Infasco designs, manufactures, and distributes threaded fasteners and forged steel parts to various industries which, among others, includes construction and infrastructure, heavy trucks and equipment, as well as automotive and agriculture. Infasco puts its 60+ years of experience and expertise to work with its customers to develop tailor-made products that improve their current fastener products. With one manufacturing facilities in Marieville (QC), as well as seven distribution centers in United States and Canada, Infasco's 400 employees can service customers anywhere around the world. Ask for our new product 1 1/4 F2280 (Coated A490 TC).	Bolting and Anchoring Systems, Engineering Consulting, Galvanizers, Structural Systems and Components	http://www.infasco.com
922	Consolidated Pipe & Supply Company	Consolidated Pipe & Supply is a leading national distributor of a wide range of pipe, valves, and fittings products as well as many other products and services focusing on numerous markets including construction, infrastructure, oil & gas, industrial, and municipal.	Bridge Components and Systems, Other, Steel Service Centers	http://www.consolidatedpipe.com
924	SprayTec Coating Solutions	SprayTec Coating Solutions provides "One Source" for your Industrial Service Solutions. SprayTec offers a broad range of Field and Shop applied surface technology solutions including: Thermal Spray/Metalizing, Specialty Coatings and Linings, Epoxy and Plural Coating Systems, Safety Traction/Anti-Skid, Atmospheric and Chemical Corrosion, Abrasive Blasting Surface Preparation, and Lead and Asbestos Abatement. Union and Open Shop Non-Union operations through Teaming efforts.	Coatings and Fire Protection, Other	http://www.sprayteccoat.com

925	Scougal Rubber Corp.		Bridge Components and Systems	http://www.scougalrubber.com
926	HRV Conformance Verification Associates, Inc.	Leading experts in materials QA/QC inspection, coatings inspection, NDT, and CM/CI focused on transportation, rail & transit, oil & gas, power, commercial, water/wastewater, and aviation markets, with the capacity to provide AWS CWI, NACE, SSPC, ACI, PCI and API inspections in materials fabrication plants and on project sites. We excel by maintaining high standards of technical training, leveraging deep industry knowledge and experience, practicing ethical conduct, applying innovative technologies, and communicating openly with our clients. We are Quality. Assured.	Engineering Consulting, Materials/Engineering/Testing and Inspection	http://www.hrvinc.com
927	FATZER AG	FATZER produces uncompromising steel wire rope assemblies. Founded in 1836 as a rope-making factory on Lake Constance in the Swiss town of Romanshorn, FATZER has been manufacturing top-quality ropes for generations. In the early stages, hemp ropes were produced, with steel rope manufacturing starting around 1900. Today, FATZER specializes in developing, manufacturing, and globally distributing high-quality steel wire ropes for structural, ropeway, and other applications. With a long history of meeting specific market needs, FATZER is recognized as a leading rope manufacturer for stadium roofs, facades, bridges, and other applications.	Bridge Components and Systems, Structural Systems and Components	http://www.fatzer.com
928	Con-Serv Inc.	Your All-American Structural Bearing Solution - Structural Support Bearing Systems for All Industries. Con-Slide™ Support Bearing Systems: Type CSA & CSB, Type CHP, High Temperature Bearings - Bronze, Meehanite®, Graphite, Elastomeric Bearings – Neoprene®, Fabric Reinforced, High Load Multi-Rotational - Pot, Disc, Spherical, Radial & Self Aligning, Rocker Bearings & Other Specialty Fabrications. Designed and Fabricated to Accommodate: Thermal Expansion, End-Beam Rotation, Vibration Isolation, and Seismic Acceleration.	Bridge Components and Systems, Structural Systems and Components	http://www.con-servinc.com
930	Acrow Bridge	Acrow has been serving the transportation and construction industries for more than 70 years with a wide range of modular steel bridging solutions for permanent, temporary and emergency use. Acrow’s prefabricated modular solutions are designed and manufactured in the United States to the highest quality assurance standards in the world. Our versatile modular technology is engineered to accommodate a wide range of customizable lengths, widths and loads and our bridging components are hot-dip zinc galvanized, offering a service life of more than 100 years. For more information, please visit www.acrow.com	Bridge Components and Systems, Construction and Project Management, Engineering Consulting, Structural Systems and Components	http://www.acrow.com
931	OpenBrIM Platform	Taking complexity out of digital/brim delivery! OpenBrIM is the world's first and only on-cloud, collaborative parametric information modeling platform that combines 3D modeling, FEA, CAD, code check, load rating, inspection, asset management and more in your web browser. Not only do we provide high ROI on resources by automation, reusability, and interoperability but we also provide flexibility by customized workflows and dedicated engineering support. Having industry-leading	Software	https://openbrim.org

		customers and the OpenBrIM community, we are the pioneers of digital transformation and innovation. Try for free in your web browser!		
932	Wurth Industry USA	Wurth Industry USA is a global supplier of structural bolting hardware for critical steel construction applications. We are structural bolting experts and a stocking distributor of A325 and A490 fasteners, including heavy hex structural bolts, tension control (TC) assemblies, anchor bolts, and double-end studs. Serving structural steel fabricators worldwide, our products are used in skyscrapers, bridges, stadiums, power plants, transmission towers, and metal buildings. We also provide custom job-site packaging, material traceability support, and technical assistance before, during, and after installation. Stop by our booth to discuss.	Bolting and Anchoring Systems, Construction and Project Management, Hand Tools/Portable Equipment and Accessories, Safety Equipment	https://www.wurthindustry.com/construction
933	Valmont Coatings	As a full-service coatings company, Valmont Coatings provides quality surface finishes that extend the service life and improve the appearance of metal products throughout the country. In fact, Valmont Coatings is one of the largest custom galvanizers in North America. Our processes and transportation capacities are designed to efficiently handle steel products of all shapes and sizes for customers anywhere in the country.	Bridge Components and Systems, Coatings and Fire Protection, Galvanizers	http://www.valmontcoatings.com
940	LARSA, Inc.	LARSA develops advanced 3D finite-element analysis software for bridges. Engineers rely on LARSA as the only software capable of advanced modeling techniques with the essential tools needed to handle complex geometries and elaborate staging. Backed by the industry's most responsive support team, engineers rapidly receive personalized assistance informed by our decades of experience advancing structural analysis software. Visit us to learn why LARSA’s Steel Bridge Module leads the way for the design and rating of steel girder bridges at the nation’s leading firms and State DOTs.	Software	https://www.larsa4d.com
941	STRUZON Technologies Inc.	Struzon, a trusted structural steel detailing/engineering service partner to the construction industry and we are an organization that wears numerous caps. From being market pioneers of structural detailing, engineering, design, and research, to do well architectural results in both residential and industrial divisions, we are enlisting our company in different arenas.	Detailers	https://struzon.com/
942	DEICON	DEICON specializes in vibration control, offering tailored, cost-effective solutions for structural applications. With extensive expertise and many years of experience in applying tuned mass dampers and other vibration mitigation solutions we help our clients meet their performance, budget, and schedule goals.	Engineering Consulting, Materials/Engineering/Testing and Inspection, Structural Systems and Components	http://www.deicon.com
944	AA Anchor Bolt, Inc.	AA Anchor Bolt, Inc., a family-operated business founded in 1979. We manufacture a multitude of quality products for a global customer base, selling directly to the end user. The company produces anchor bolts, custom fasteners bent and threaded products from 1/4" -5" diameter, in various finishes and grades of steel, DOT, pulling irons, plates, manhole steps, barrier pins, round/square bent U-bolts, bracing rods, single/double-ended studs, etc. We carry a wide-range of products within our in-house facility and can create	Bolting and Anchoring Systems, Bridge Components and Systems, Other, Welding and Stud Material	https://www.aaanchorbolt.com/

		custom orders based on customer demand. Our motto is: “Impossibilities we do immediately. Miracles take a little longer.”		
946	TRU-FIT PRODUCTS	Tru-Fit Products manufactures a full line of stud welding equipment, weld studs, specialty fasteners, anchor bolts, and plate washers for the structural, manufacturing, and construction industries. Based out of Ohio and with nearly 100 years of fastener manufacturing experience, Tru-Fit Products has the capabilities to take care of your company’s fastener needs. Visit www.tfpcorp.com and www.truweldstudwelding.com to learn more.	Bolting and Anchoring Systems, Hand Tools/Portable Equipment and Accessories, Structural Systems and Components, Welding and Stud Material	https://tfpcorp.com/
947	Whiteboard Technologies LLC	For over two decades, Whiteboard has perfected the delivery of professional Steel Detailing with an unwavering focus on Quality and Design-Based thinking in all Structural Steel and PEMB projects. We invest organically in having the right people who understand Steel fabrication and Erection from a value perspective and deliver quality solutions to a diverse range of construction projects. Our Hybrid-Delivery model offers On-site and Offshore to ensure that there is maximum utilization of our detailing teams round the clock. We use 3D BIM software such as SDS/2 & Tekla to detail the steel projects ranging from 50-15000 tons.	Detailers, Other	http://www.whiteboardtec.com
950	Short Span Steel Bridge Alliance	The Short Span Steel Bridge Alliance (SSSBA) is a group of bridge and buried soil steel structure industry leaders who have joined together to provide educational information on the design and construction of short span steel bridges in installations up to 140 feet in length.	Bridge Components and Systems	https://www.shortspansteelbridges.org
952	D.S. Brown	Founded in 1890, The D.S. Brown Company is a leading worldwide designer, supplier, and manufacturer of engineered products for the bridge, airport and highway industries. As technology has evolved and influenced our means of transportation, D.S. Brown too has evolved to meet the needs of the current times. From our humble beginnings to our current focus on the manufacturing of high-quality infrastructure construction products, D.S. Brown has been there for over a century to help the world move forward.	Bridge Components and Systems, Joists and Deck, Structural Systems and Components	https://dsbrown.com/
953	Eastern Pneumatics & Hydraulics, Inc./McCann Equipment Ltd.	EPH Specializes in Steel Erector and Torque Tools such as: Tone, Electric; NexTORK, Pneumatic, Electric & Battery; Torcup, SPX Power Team Hydraulic Wrenches, Cylinders & Pumps; Skidmore-Wilhelm Bolt Tension Calibrator; Kabo Torque Wrenches & Torque Testers; Klein Drift Pins up to 1-9/16", Structural Wrenches & Accessories. We operate an ISO 17025:2017 Accredited Calibration Facility for Repair, Calibration & Certification with NIST Traceability. We also have the capability to service virtually any make and model torque tool.	Hand Tools/Portable Equipment and Accessories, Other, Stationary Fabrication Equipment	https://www.ephtools.com
956	Enidine	Our highly engineered structure protection components and custom solutions are built to take on whatever Mother Nature can dish out. With over 20-plus years of experience, Enidine offers a diversified portfolio of energy absorption products for infrastructure and equipment protection. Enidine offers the fastest service in the industry, the highest quality of testing around and in-house product development. No matter what seismic	Other, Structural Systems and Components	https://enidine.com/en-us/infrastructure

		protection solutions you need, we get the job done.		
957	LUSAS	LUSAS finite element analysis software provides accurate and cost-effective analysis, design and load rating of steel and concrete bridges. Used widely by Consultants and DoTs for frequency, seismic, dynamic, nonlinear, buckling, fatigue, staged construction, creep and shrinkage, prestress / post-tensioning, soil-structure and rail track-structure interaction modeling and many other forms of analysis. Vehicle-load optimization facilities provides worst-case traffic and rail loading patterns. AASHTO and other design codes supported. Extensive results viewing and reporting options.	Engineering Consulting, Software	https://www.lusas.com
958	Chicago Jack Service, Inc.		Bolting and Anchoring Systems, Cranes and Lifts, Hand Tools/Portable Equipment and Accessories, Safety Equipment	https://www.chicagojack.com/
959	North Shore Steel	North Shore Steel, founded in 1955, is a technology-driven metals service center with locations in Houston and Beaumont, TX. We supply a broad range of structural steel, sheet, and plate products. Our value-added processing services encompass CNC plasma, oxy-fuel, waterjet, and laser cutting, heavy plate rolling, press forming, machining, robotic coping, and ASME-certified welding. Operating under an ISO 9001:2015 quality management system, we ensure precision and full traceability. Our experienced team and advanced equipment help customers save time, improve material utilization, and increase capacity.	Steel Service Centers	https://nssco.com
962	RPK Techno Solutions	RPK Techno Solutions is a dynamic team of experienced steel detailers delivering precise and comprehensive shop and field drawings using Tekla and SDS/2. Established in 2019, we have a strong presence in the USA, Canada, Australia, and India. We specialize in structural and miscellaneous steel detailing, BIM Services, and connection design for fabricators, architects, and contractors. Our expertise spans commercial, industrial, healthcare, educational, and warehouse projects. We utilize cutting-edge technology, and our detailing process leverages advanced 3D detailing software to ensure precision and accuracy in every project.	Detailers, Engineering Consulting, Other, Stairs/Railings and Miscellaneous Steel	https://www.rpktspl.com
963	High Transit LLC		Other, Transportation and Logisitcs	https://www.hightransit.com
964	RBC Bearings	RBC Lubron Bearing Systems designs and manufactures high-performance, self-lubricating bearings for heavy-load, long-life applications. As part of RBC Bearings, Lubron supplies spherical, journal, and multi-rotational bearings used in bridges, power generation, defense systems, cranes, and seismic isolation. Known for durable, maintenance-free liner technology and precision manufacturing, RBC Lubron supports critical infrastructure worldwide.	Bridge Components and Systems, Engineering Consulting, Structural Systems and Components	https://www.rbcbearings.com

965	MIDASoft Inc.	MIDAS develops and delivers finite element software solutions for bridge, structural, and geotechnical engineering. Our solutions are trusted and used worldwide for a wide range of infrastructure projects, combining high-fidelity simulation, advanced numerical methods, and optimized design workflows to support safe, efficient, and economical design. As a global market leader in civil engineering software, we are driven by a commitment to engineering excellence and continue to evolve alongside the needs of the engineers, delivering reliable tools that support innovation in complex and demanding projects and schedules.	Software	https://www.midasuser.com/en
966	Enerpac	Enerpac's mission is to help customers tackle their most demanding—and often hazardous—jobs with confidence. For nearly a century, we've engineered high-pressure hydraulic tools and industrial solutions designed to perform safely, precisely, and reliably in the world's toughest environments. Supported by a global service network and an unwavering commitment to safety and reliability, Enerpac solutions minimize downtime, protect teams, and keep operations running at peak productivity, without compromise.	Bolting and Anchoring Systems, Cranes and Lifts, Hand Tools/Portable Equipment and Accessories, Safety Equipment	https://www.enerpac.com
967	Bridging the Gap Africa	Bridging the Gap Africa (BtGA) envisions a world where every rural and isolated community is connected by safe, reliable trail bridges. These bridges prevent drowning and open education, healthcare, and economic opportunities. And, they connect people that haven't been connected before. BtGA builds bridges that save lives. Be A Bridge Today.	Construction and Project Management, Engineering Consulting, Other, Transportation and Logisitcs	https://bridgingthegapafrica.org
969	Ronstan Tensile Architecture	Ronstan Tensile Architecture delivers engineered structural rods, cables, and stainless steel mesh systems engineered for the performance and constructability demands of modern steel design. Our tension components provide dependable load paths and precise adjustability for bridges, glass curtain walls, facades, canopies, and bracing assemblies. With integrated engineering support, detailed fabrication guidance, and precision manufacturing, Ronstan helps design engineers and fabricators achieve efficient, visually refined tensile structures.	Bridge Components and Systems, Stairs/Railings and Miscellaneous Steel, Structural Systems and Components	https://www.ronstantensilearch.com/
